an existing conversation...

Instant messaging

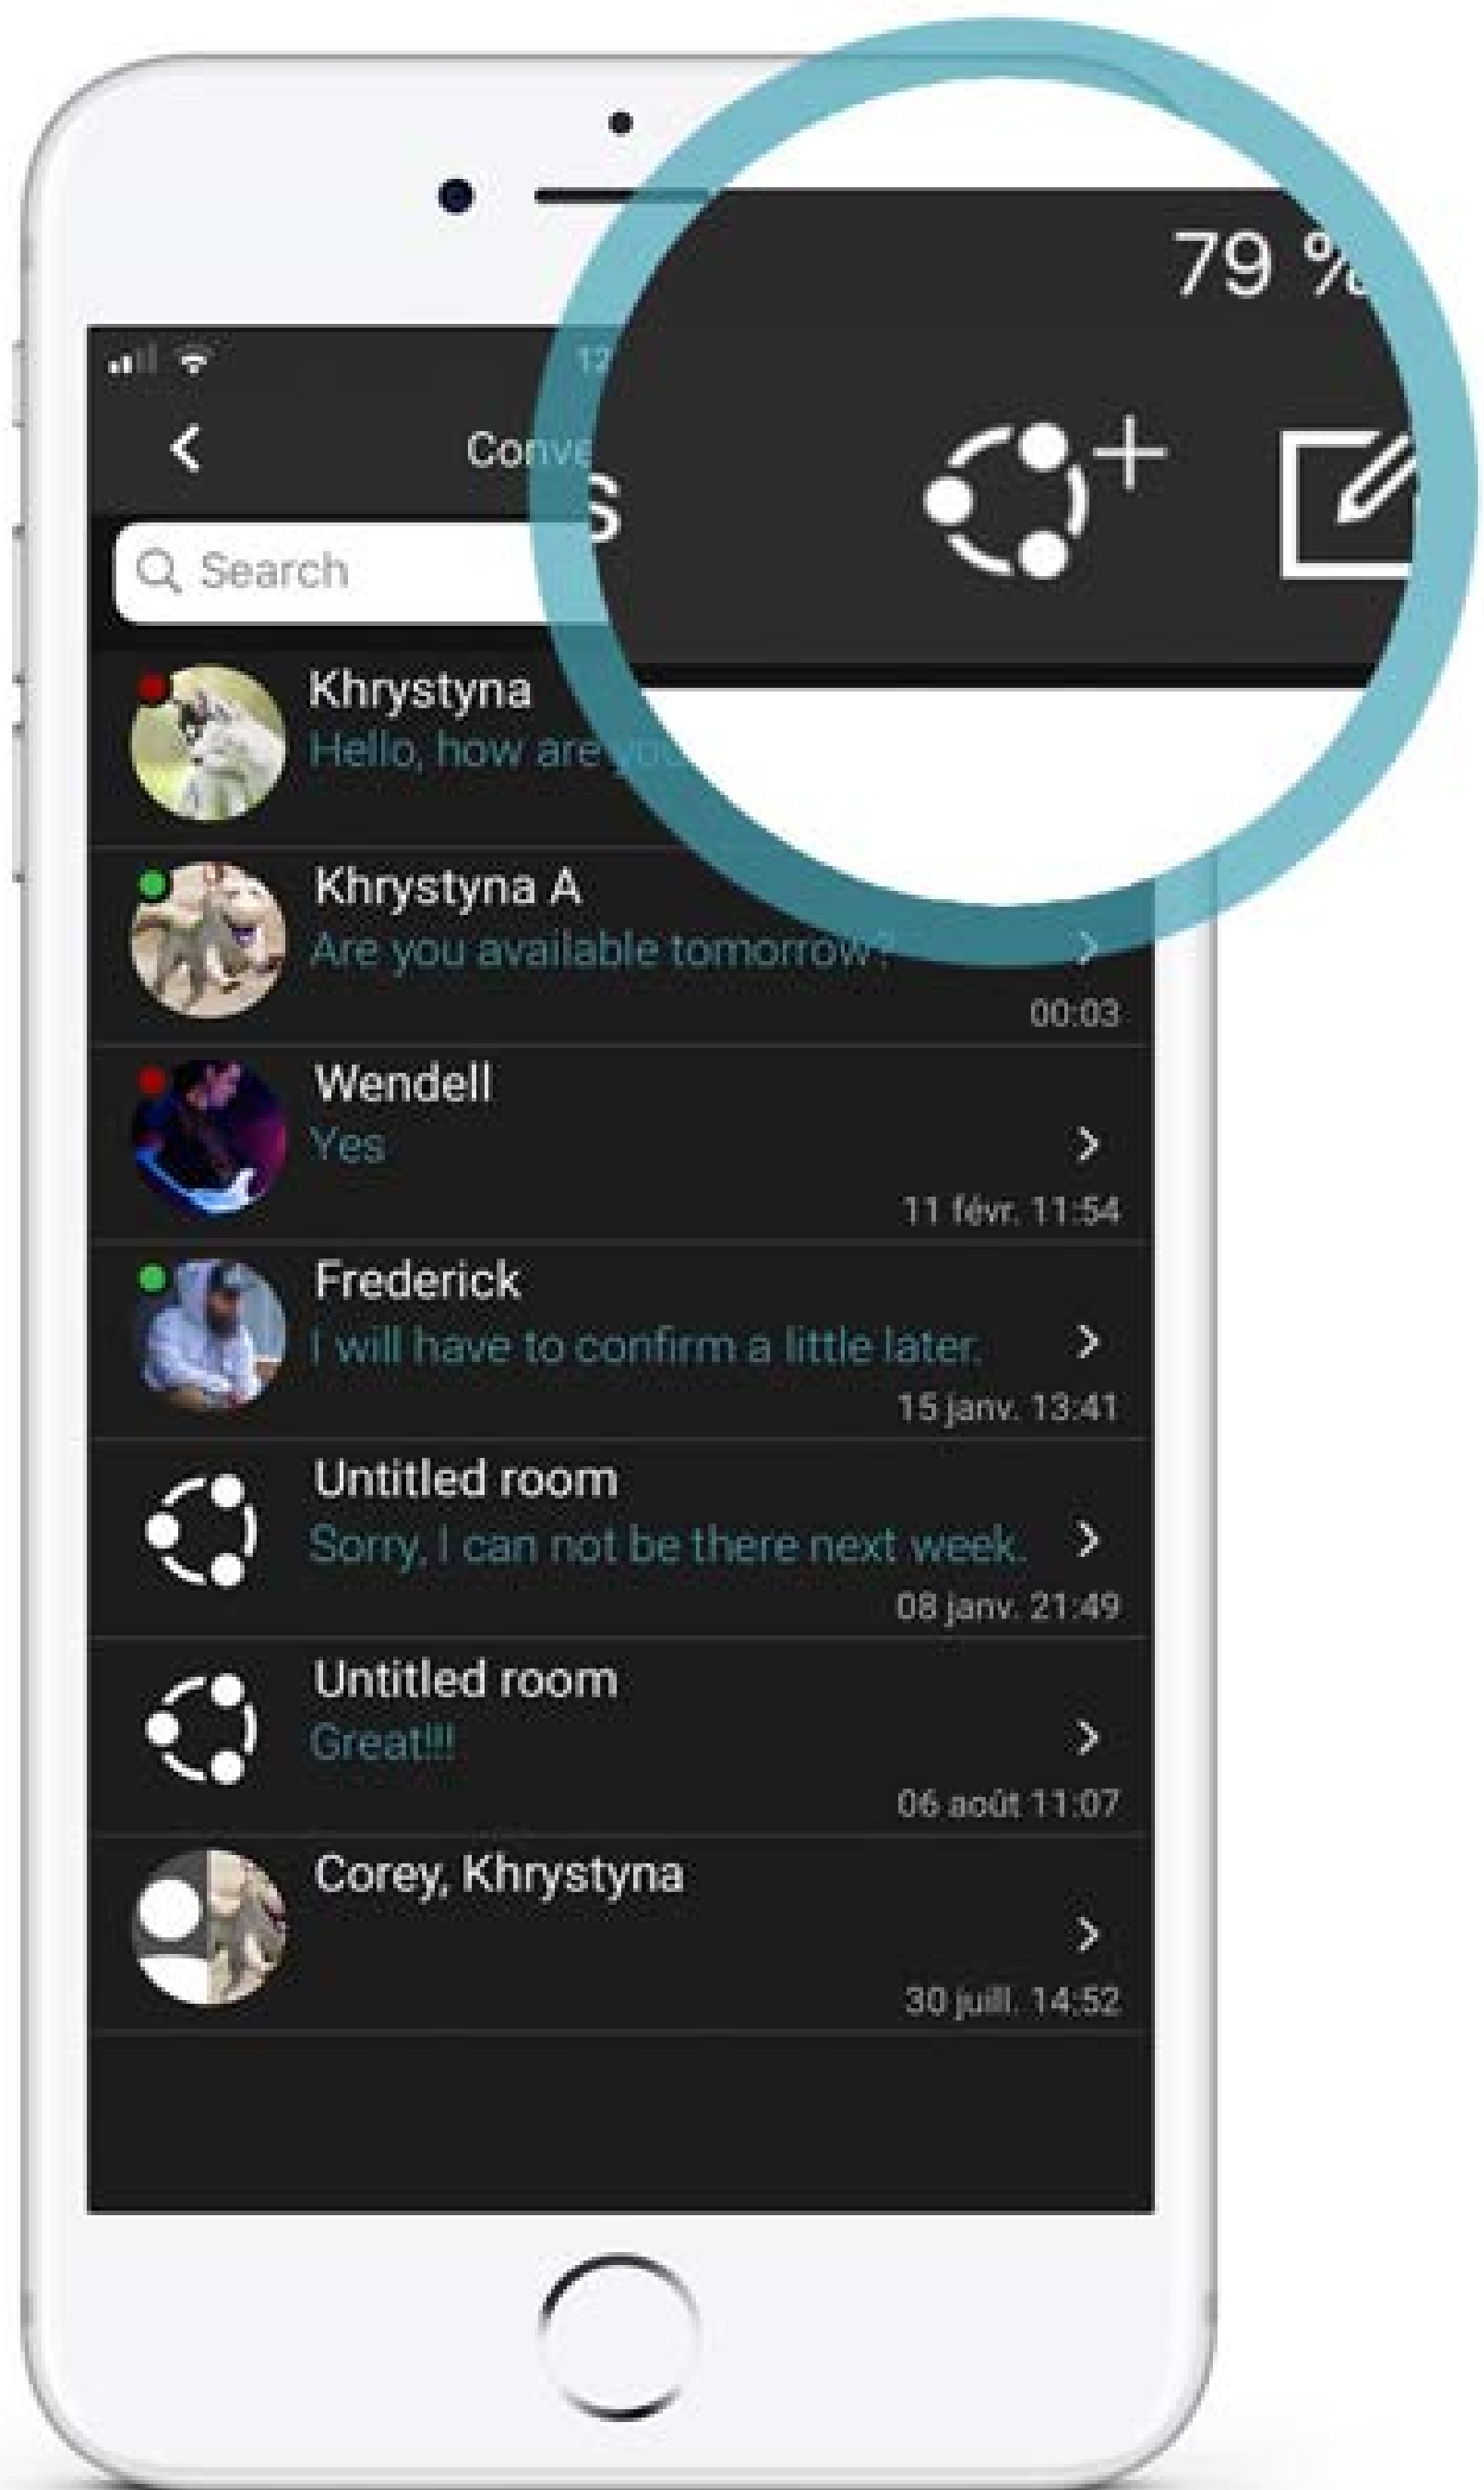

... or create a new one by
tapping the “new message”
icon

Instant messaging

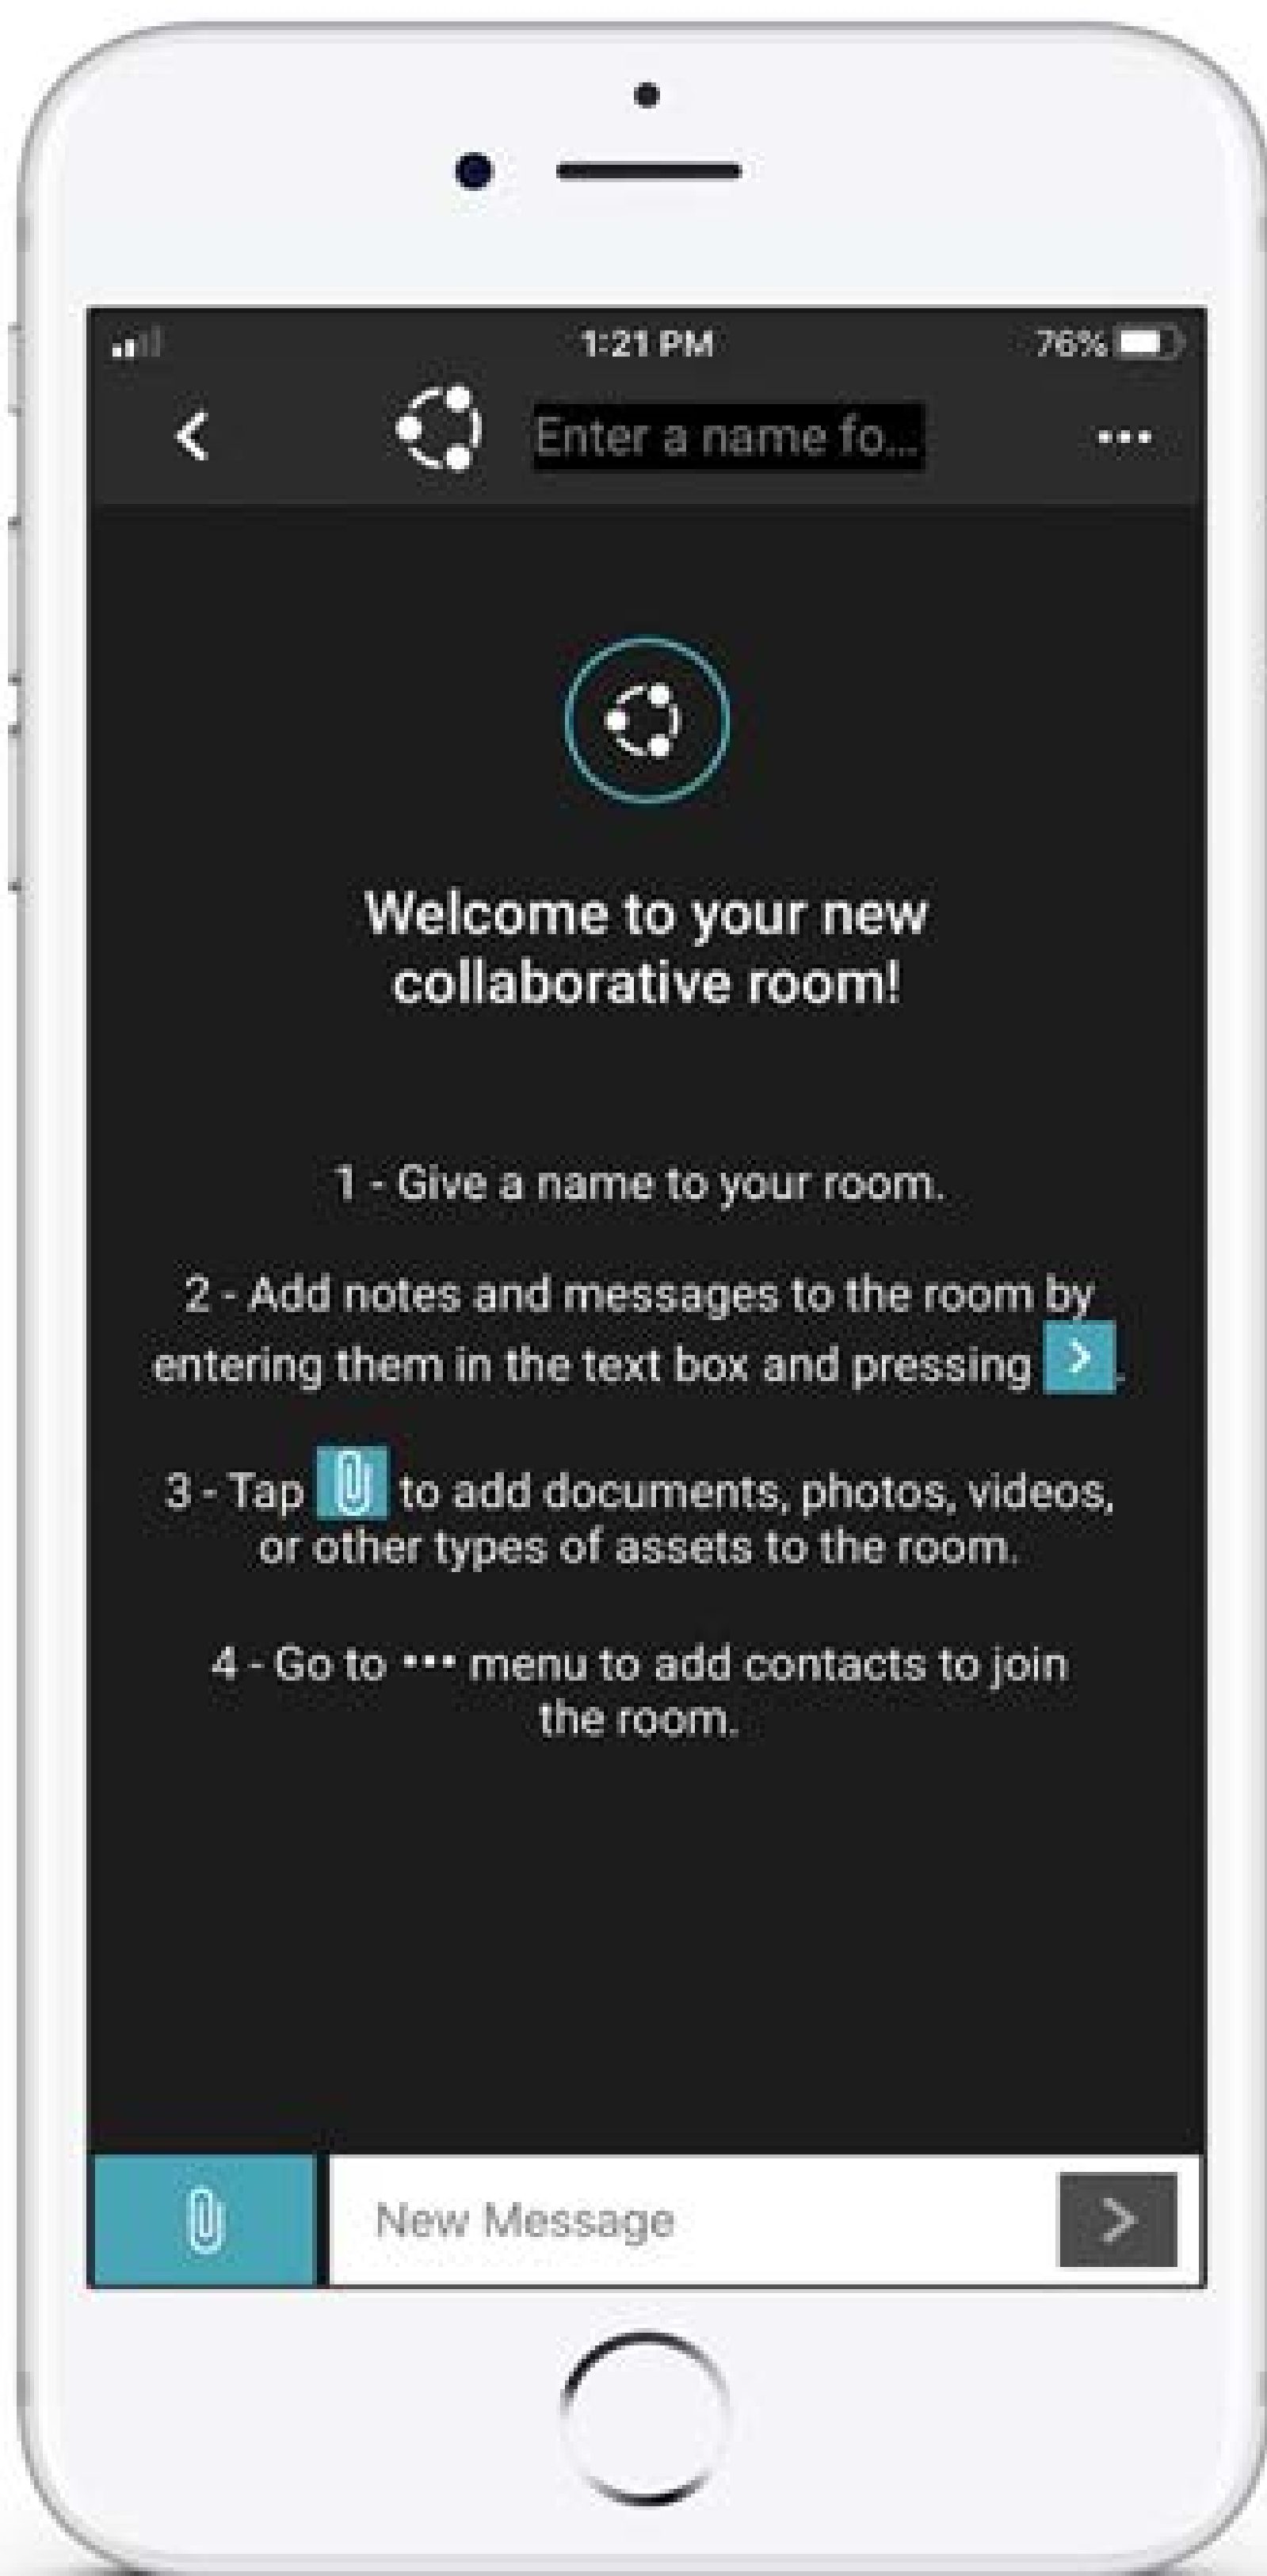

Select one or more contacts
to start a conversation

Collaborative Rooms

Create virtual
collaboration rooms

Collaborative Rooms

You can invite colleagues and/or patients and securely share messages, images, videos, documents and other types of files

Snapshots

**not yet available on Android devices*

Tap the camera icon to take
a photo or video

Snapshots

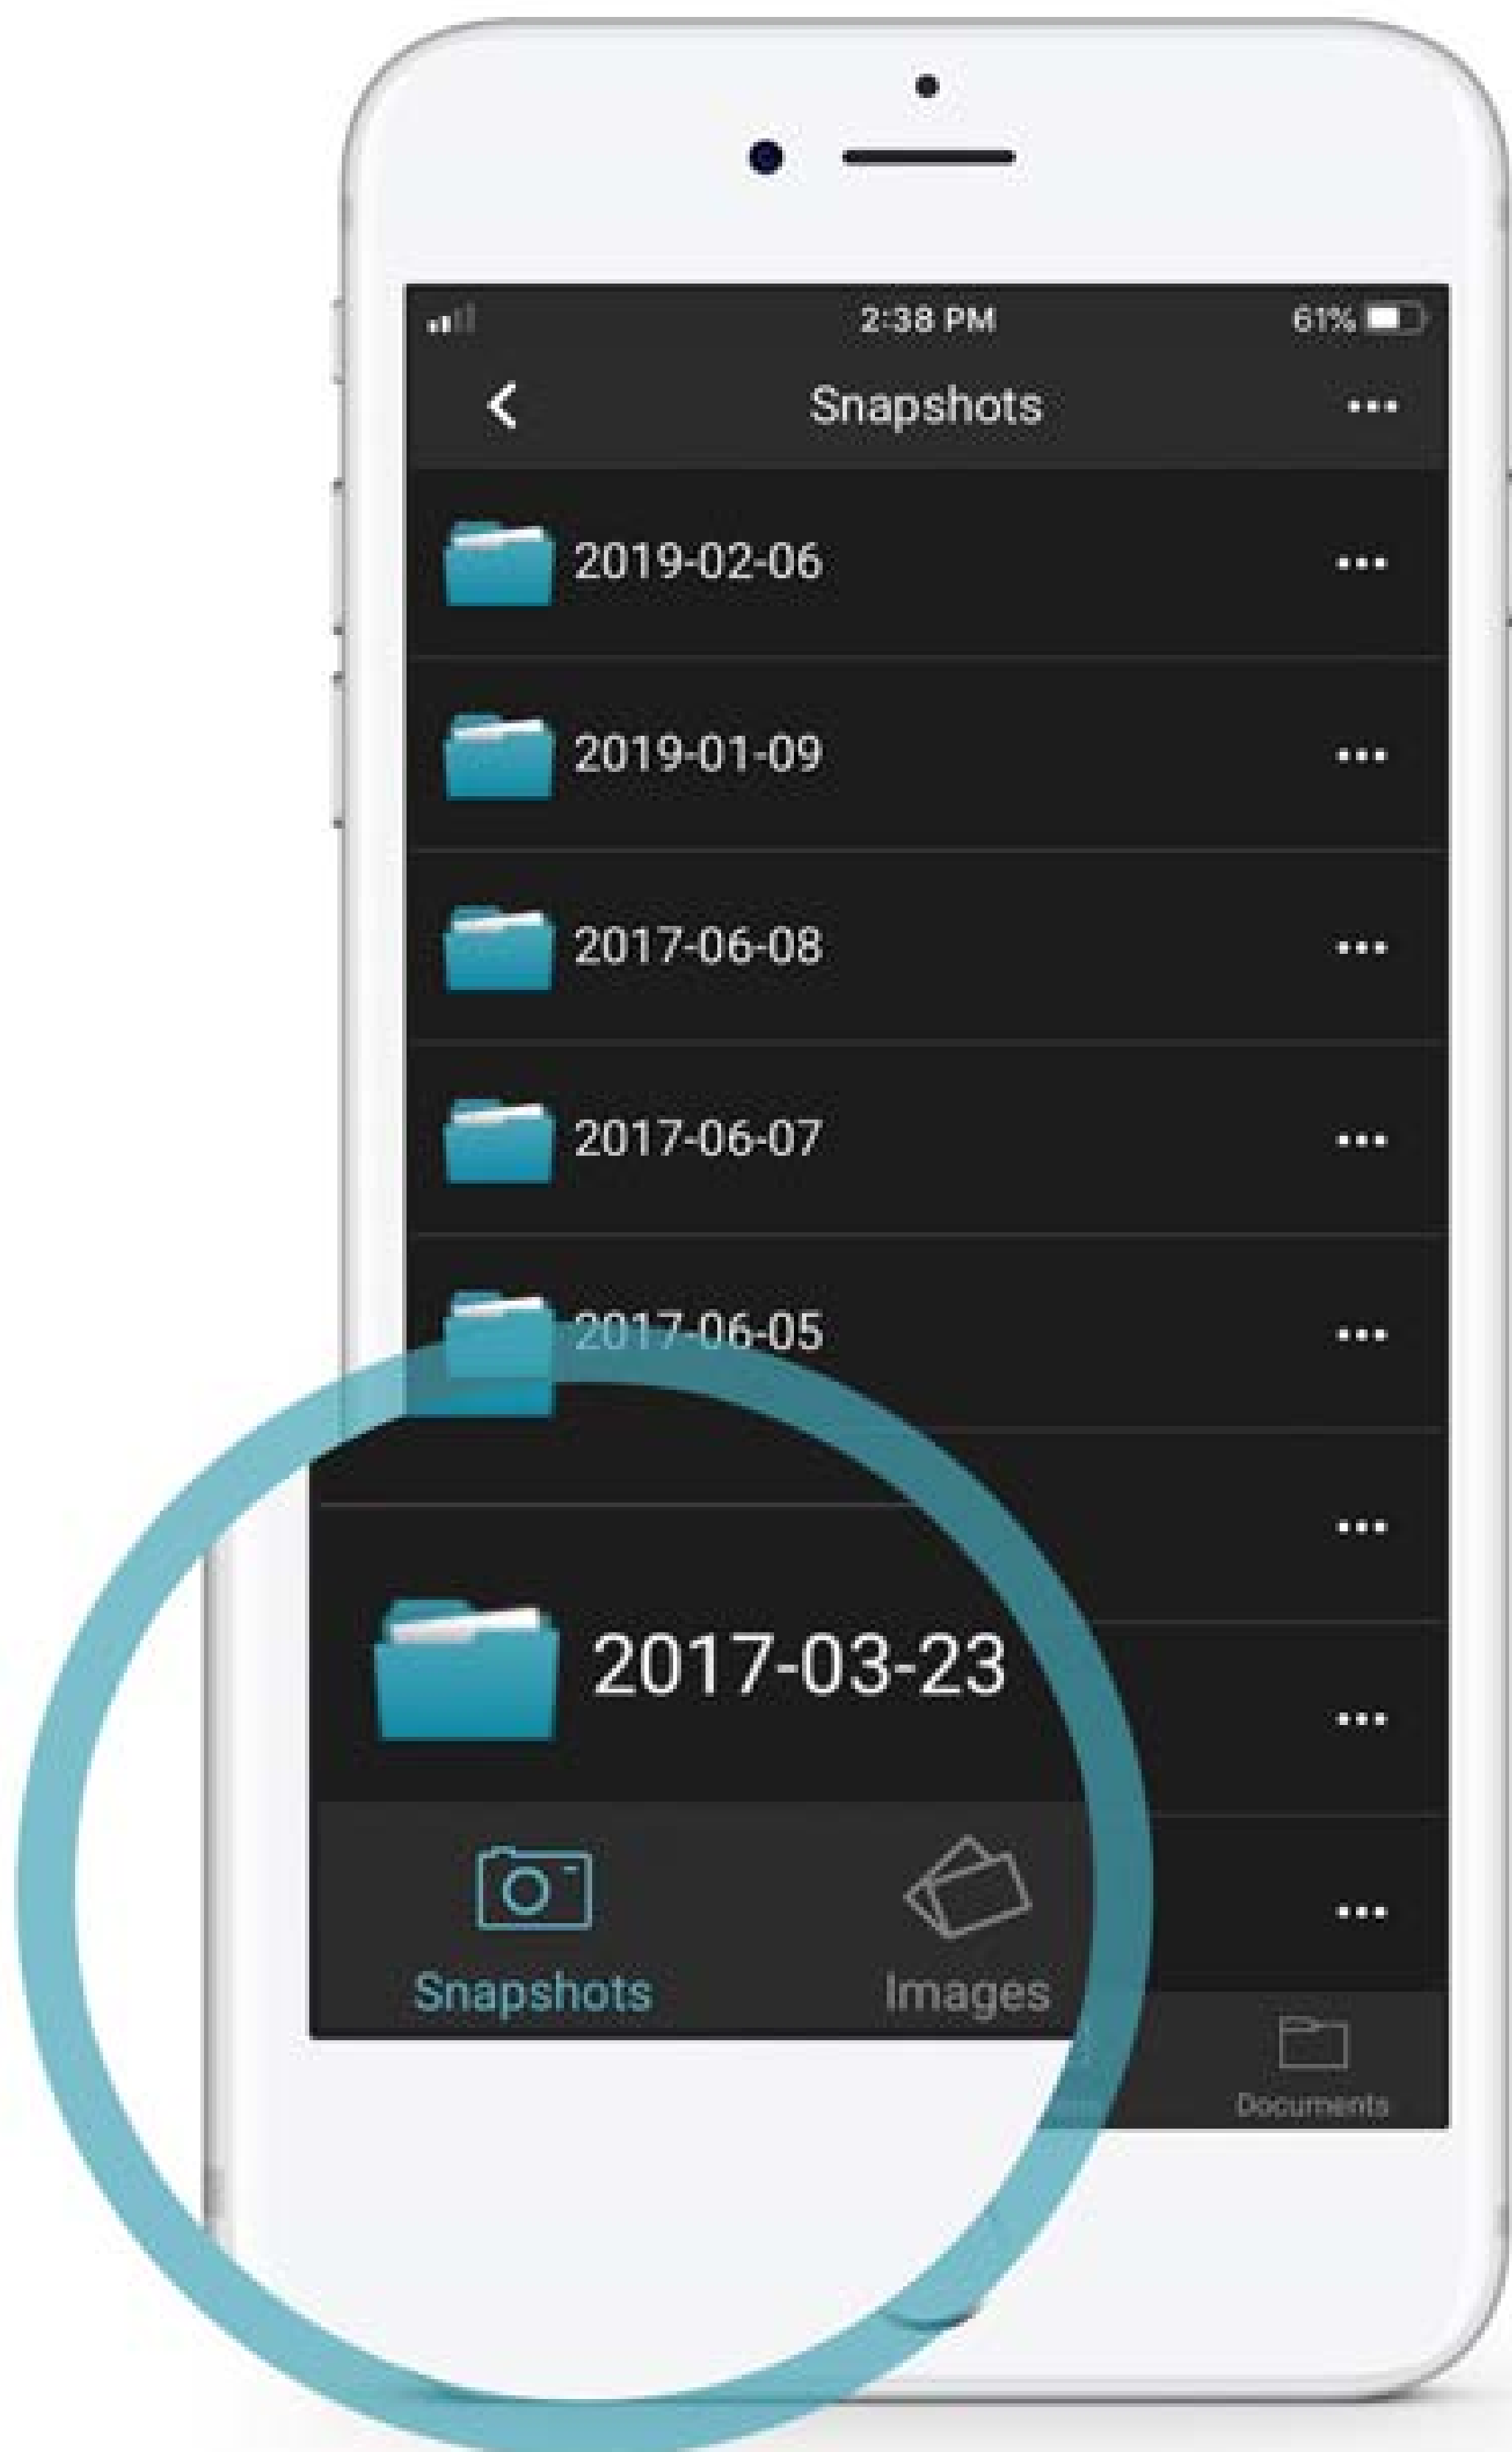

**not yet available on Android devices*

Once you've taken a snapshot,
it will automatically be saved
in your library...

Snapshots

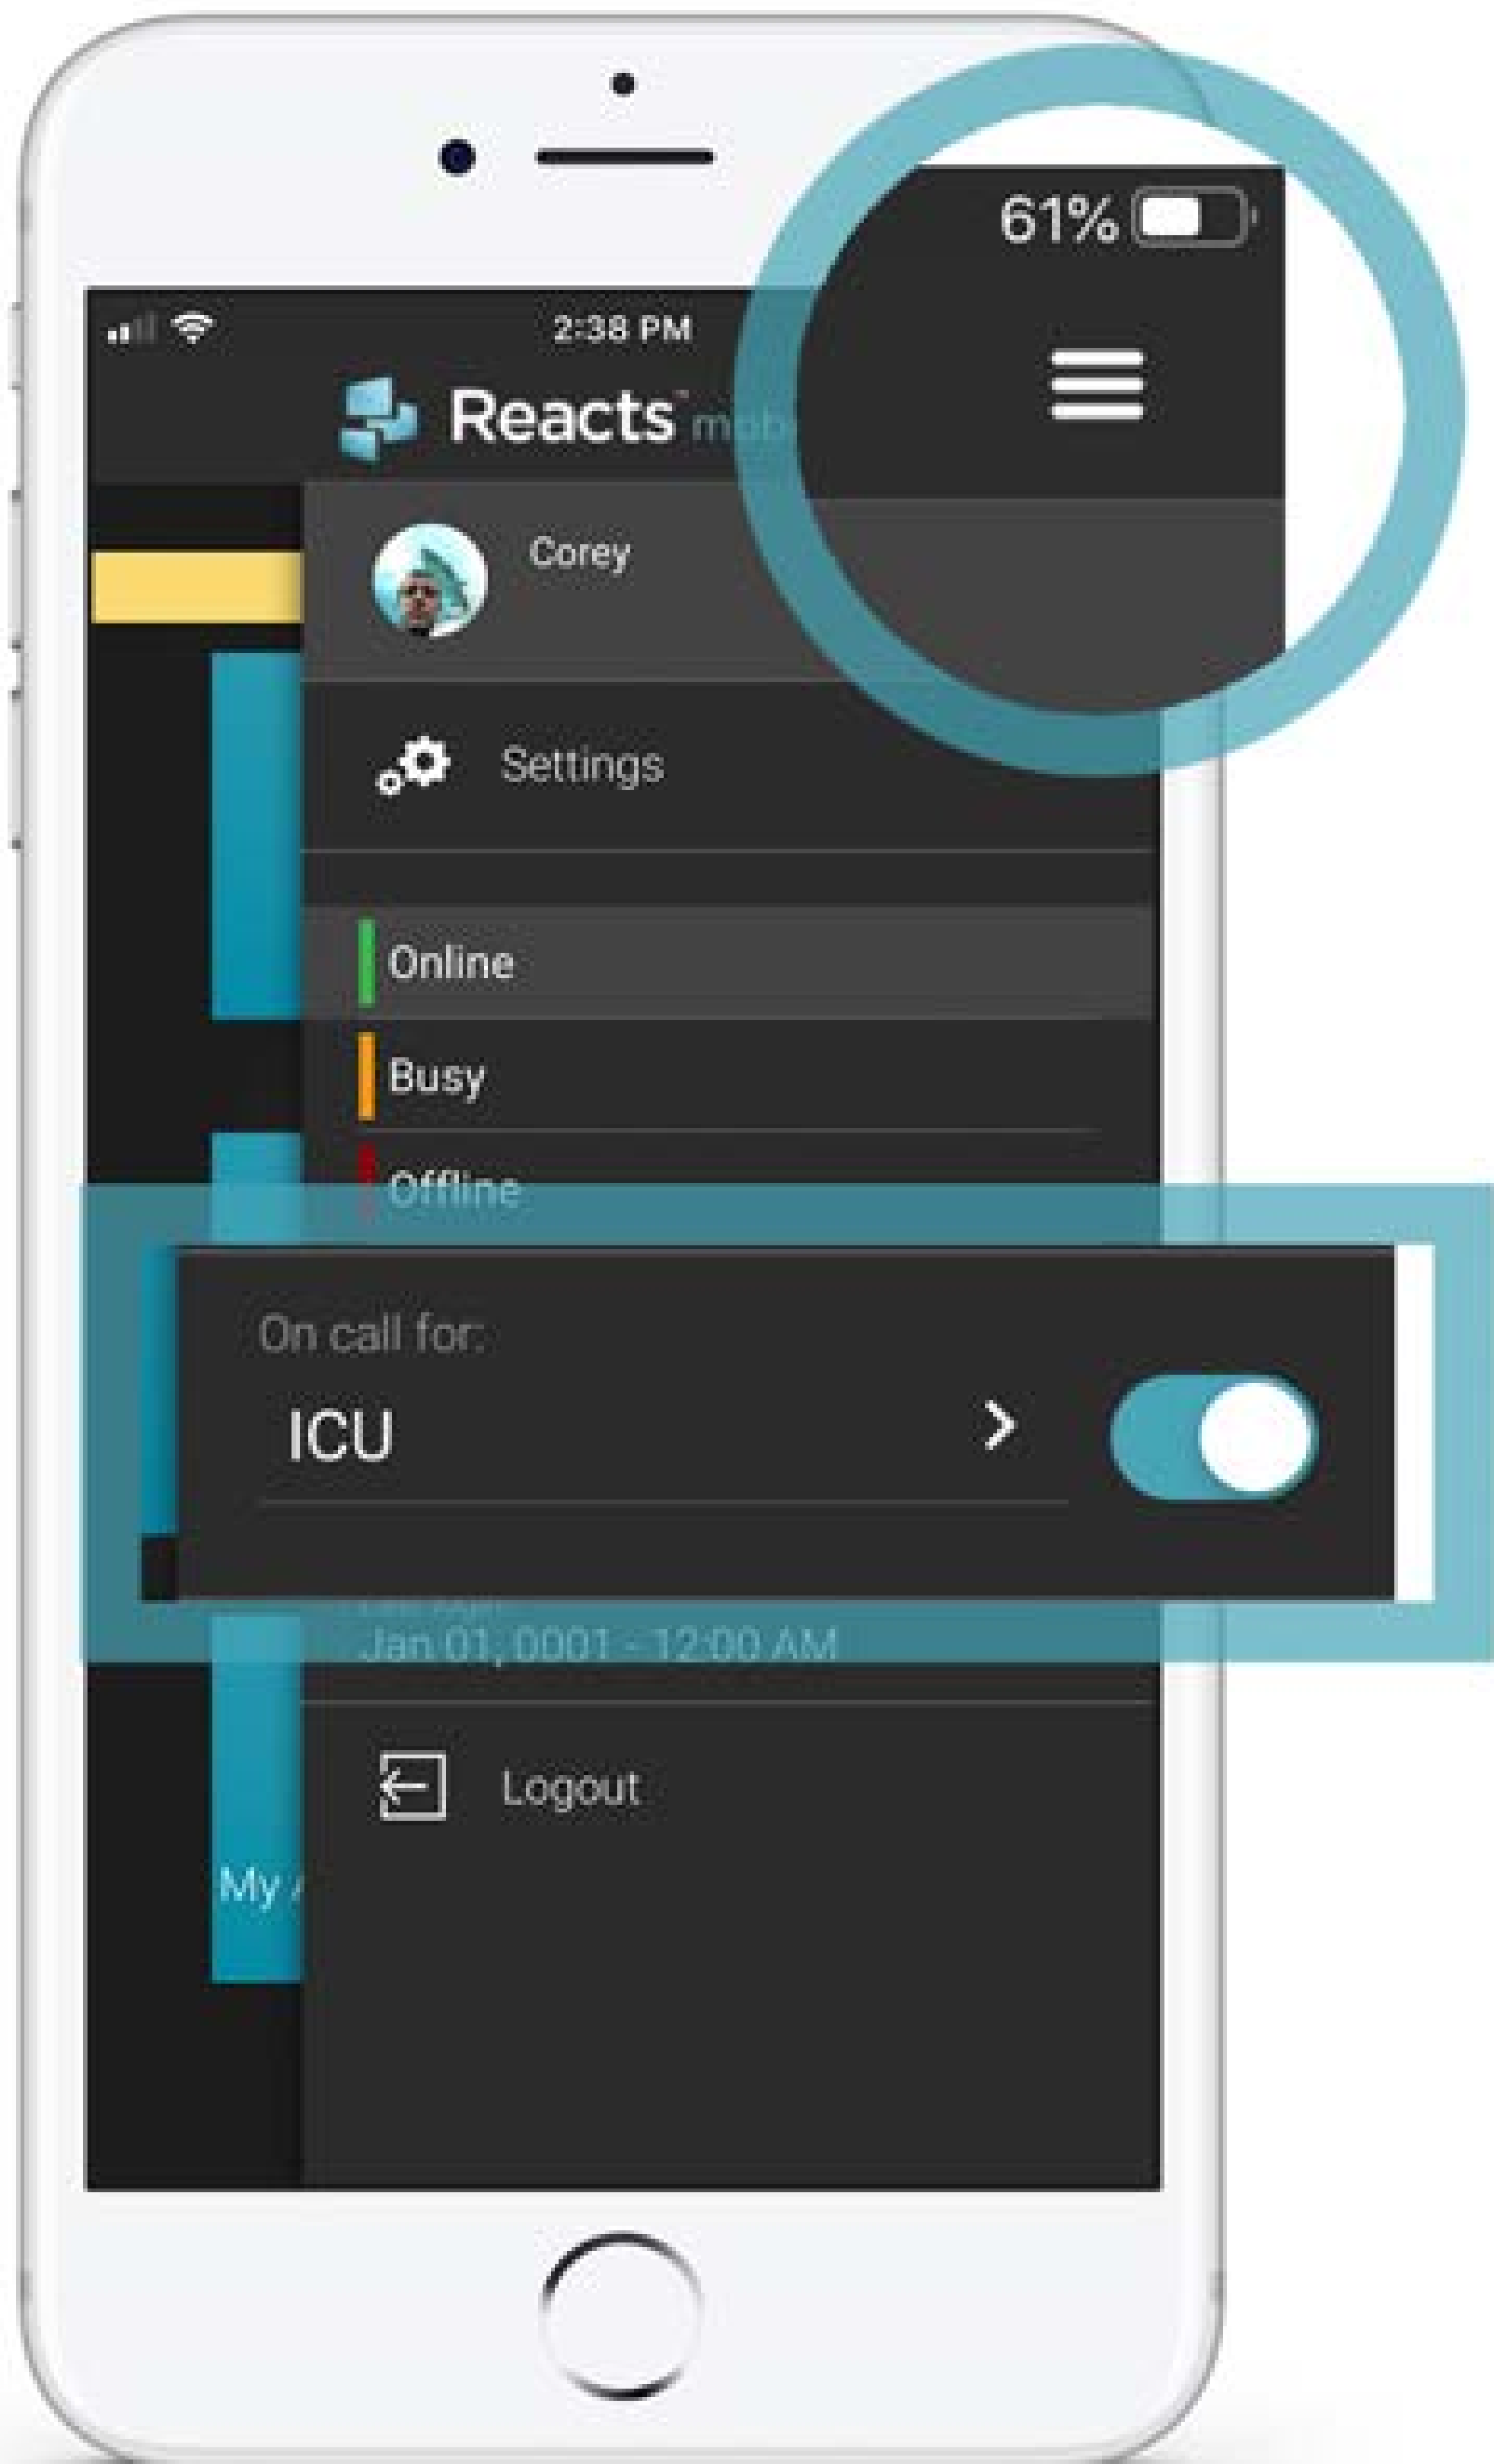

**not yet available on Android devices*

... in a dated folder, in
the Snapshots section

On-call Status

Add an on-call status to your profile
(using the upper righthand menu)

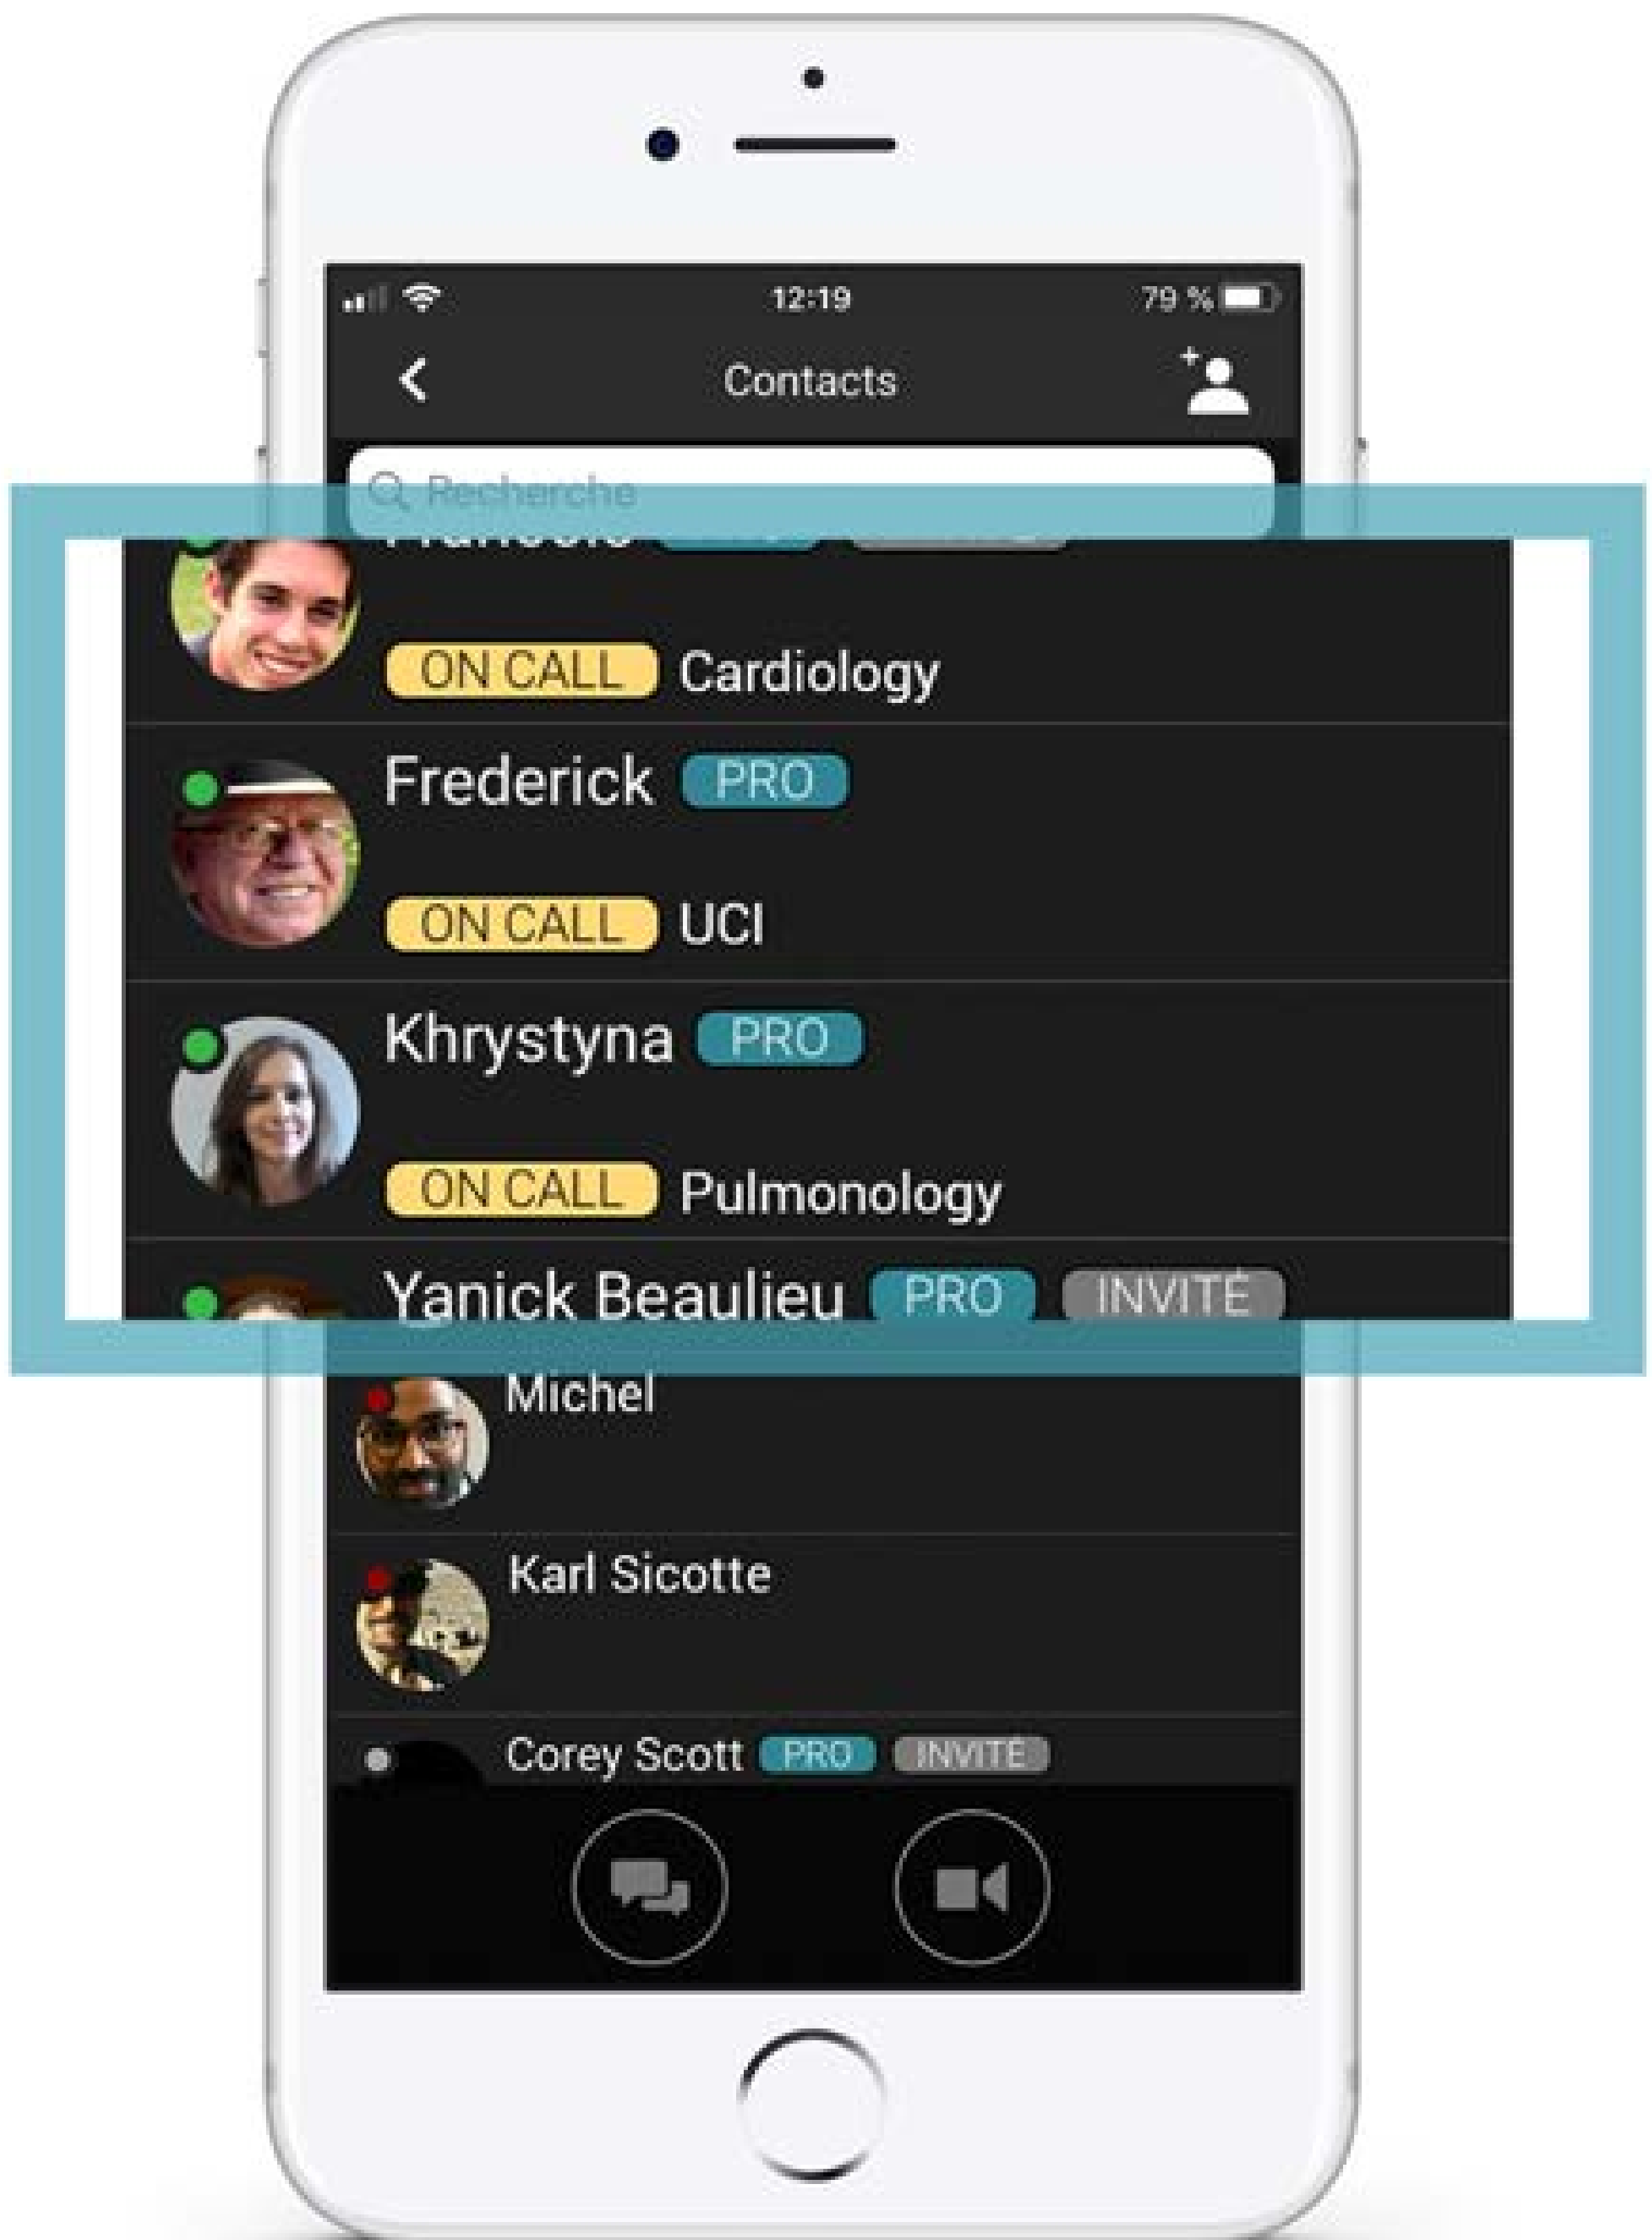

You can indicate for which
function you are on-call, as well
as turn the status on/off

On-call Status

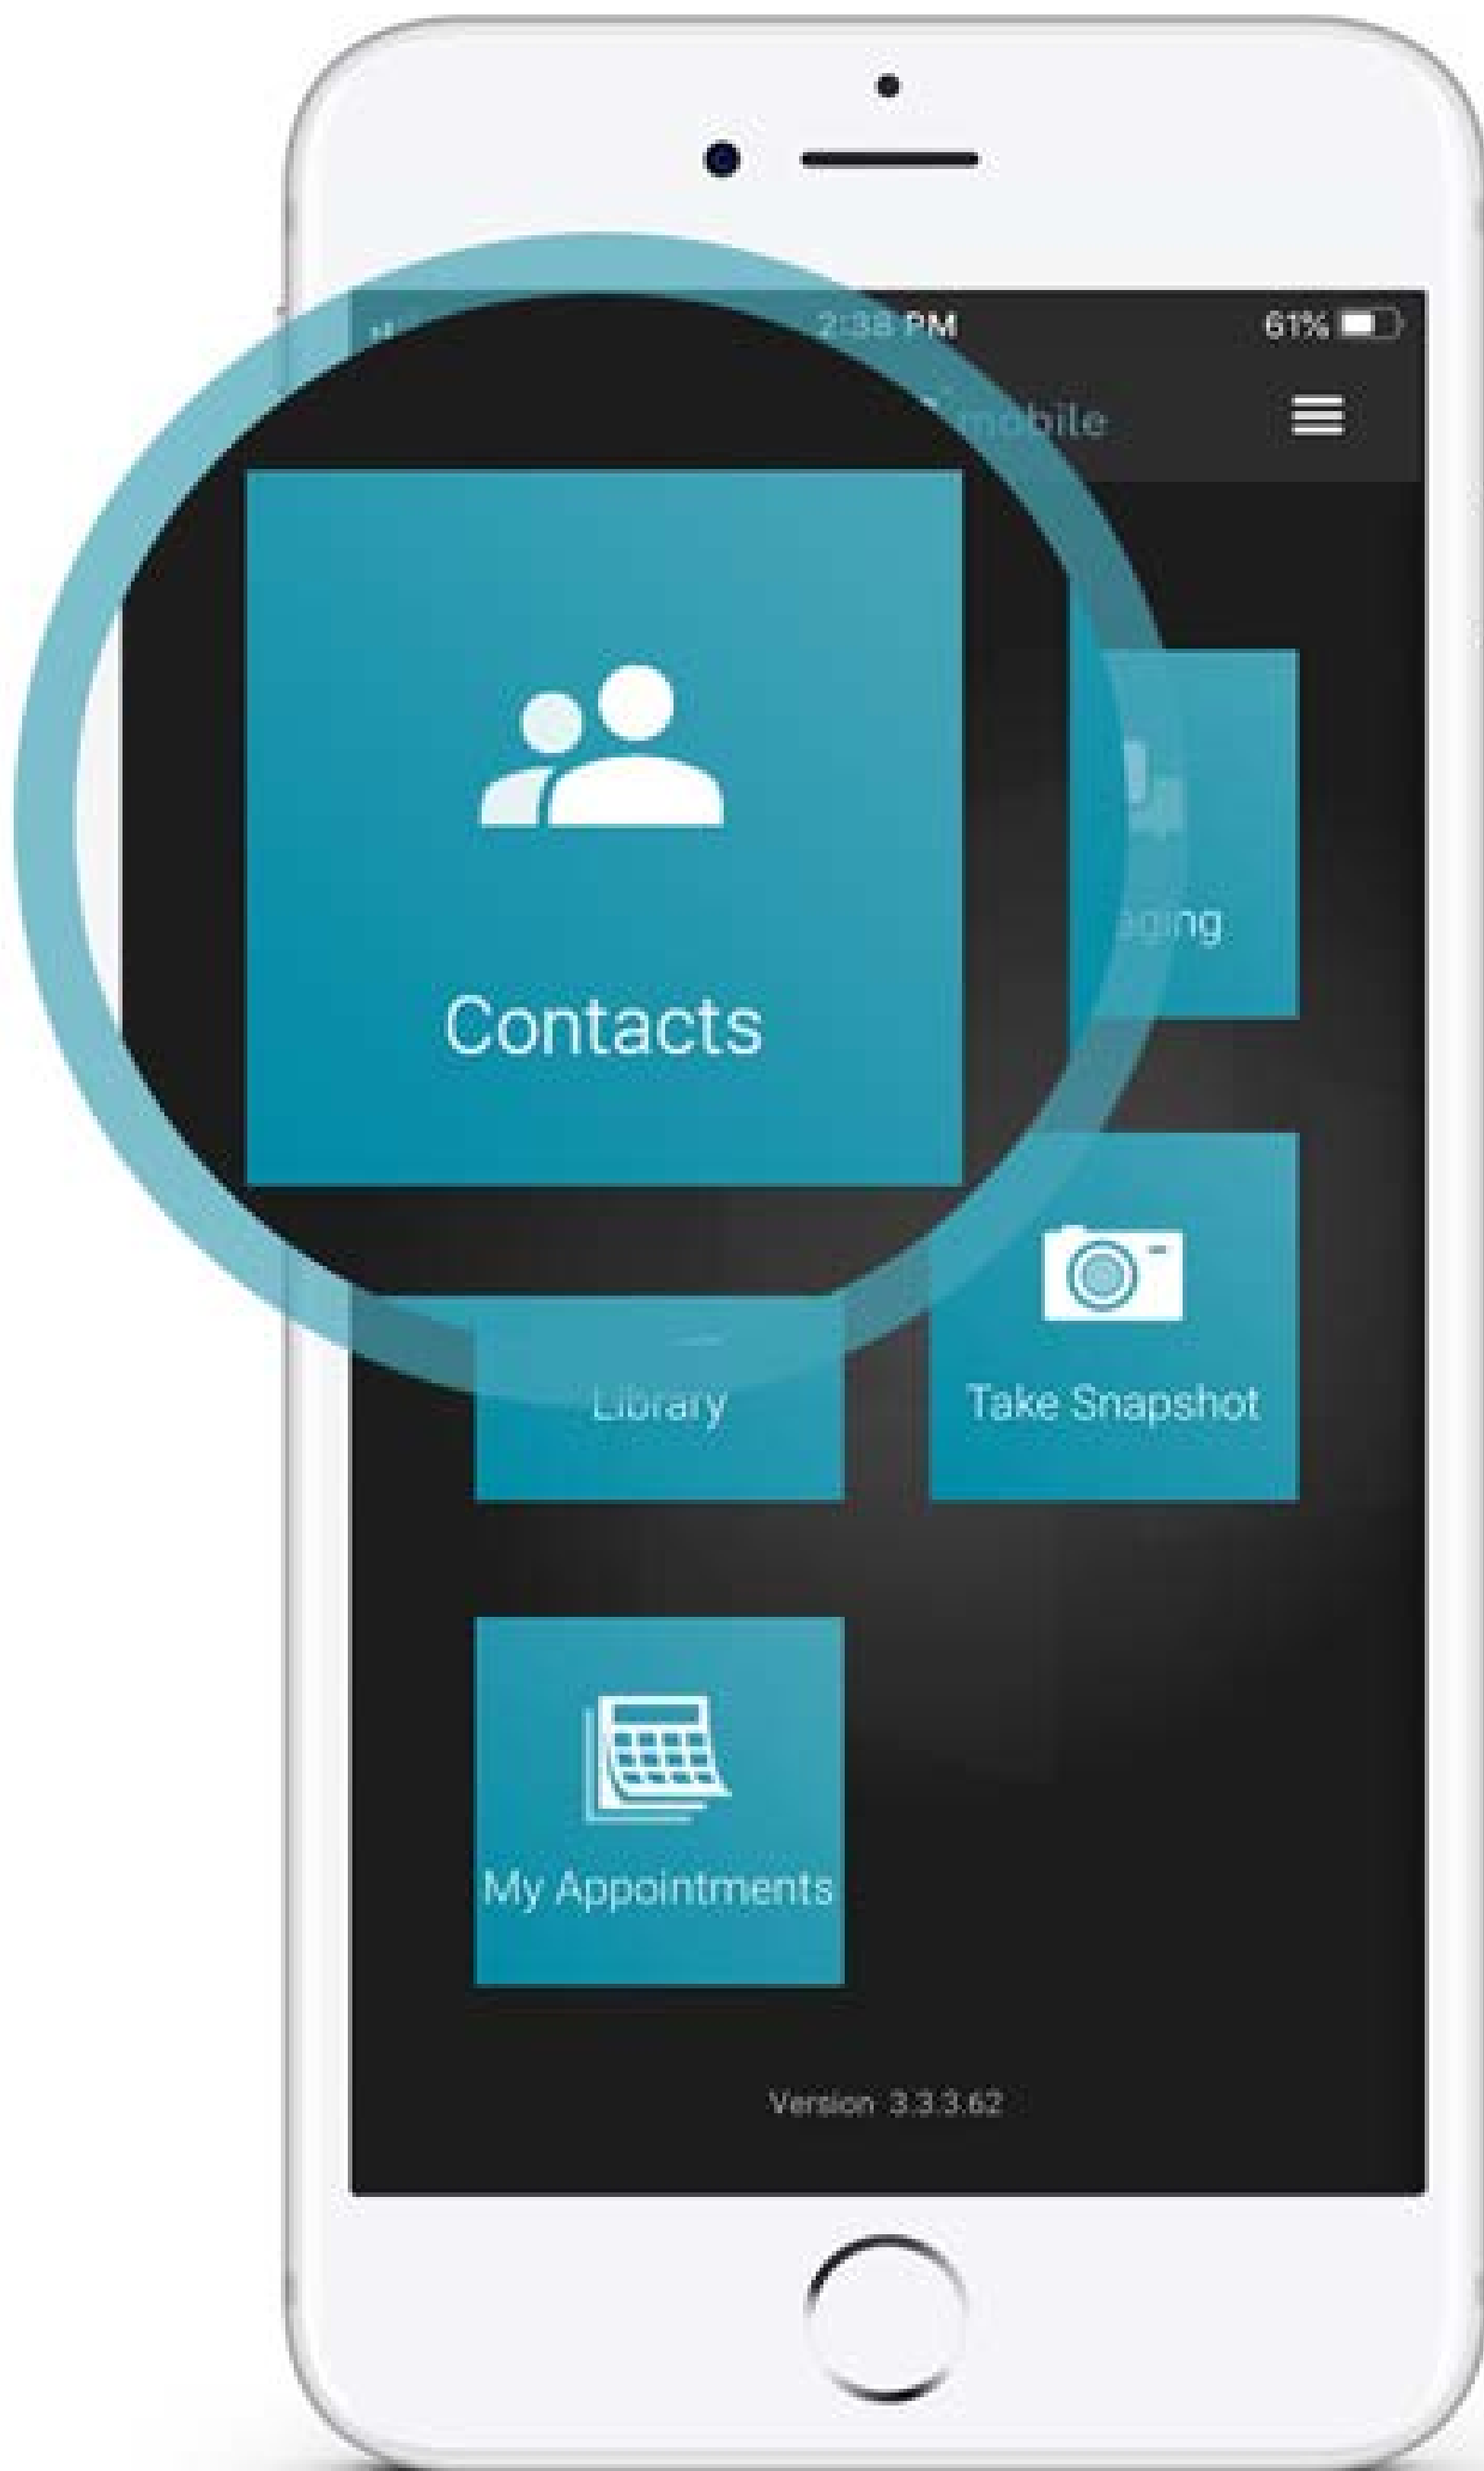

When your on-call status is "on", it's indicated at the top of your homepage

On-call Status

You can see which of your contacts are on call and contact them directly via secure messaging, audio or video call
