The Reacts web application will launch. Make sure you then **Allow** the application to use your camera and microphone, and also allow notifications.
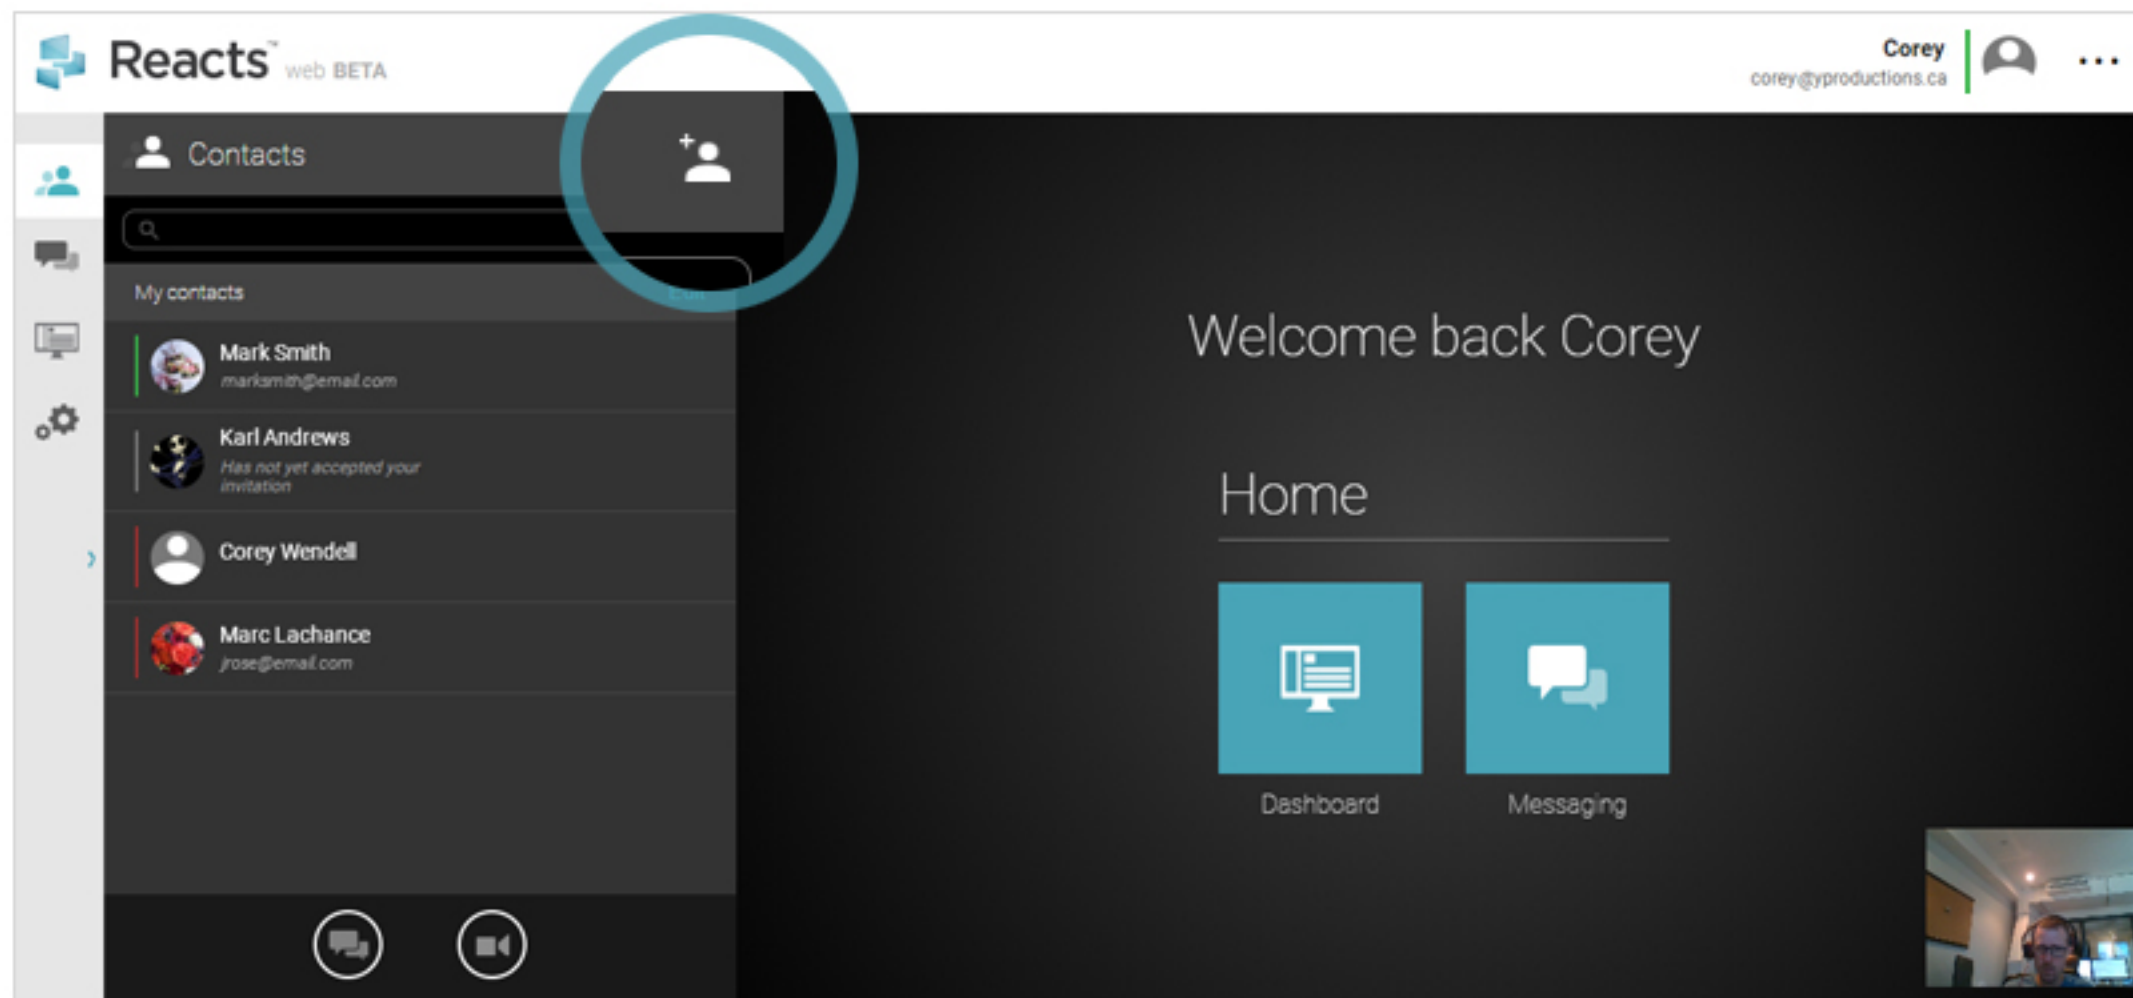

In the **Contacts** section on the home page, you will see the names
of the person(s) with whom you are connected.

Select a contact from your list and choose to send an instant message or start a video chat with this contact.
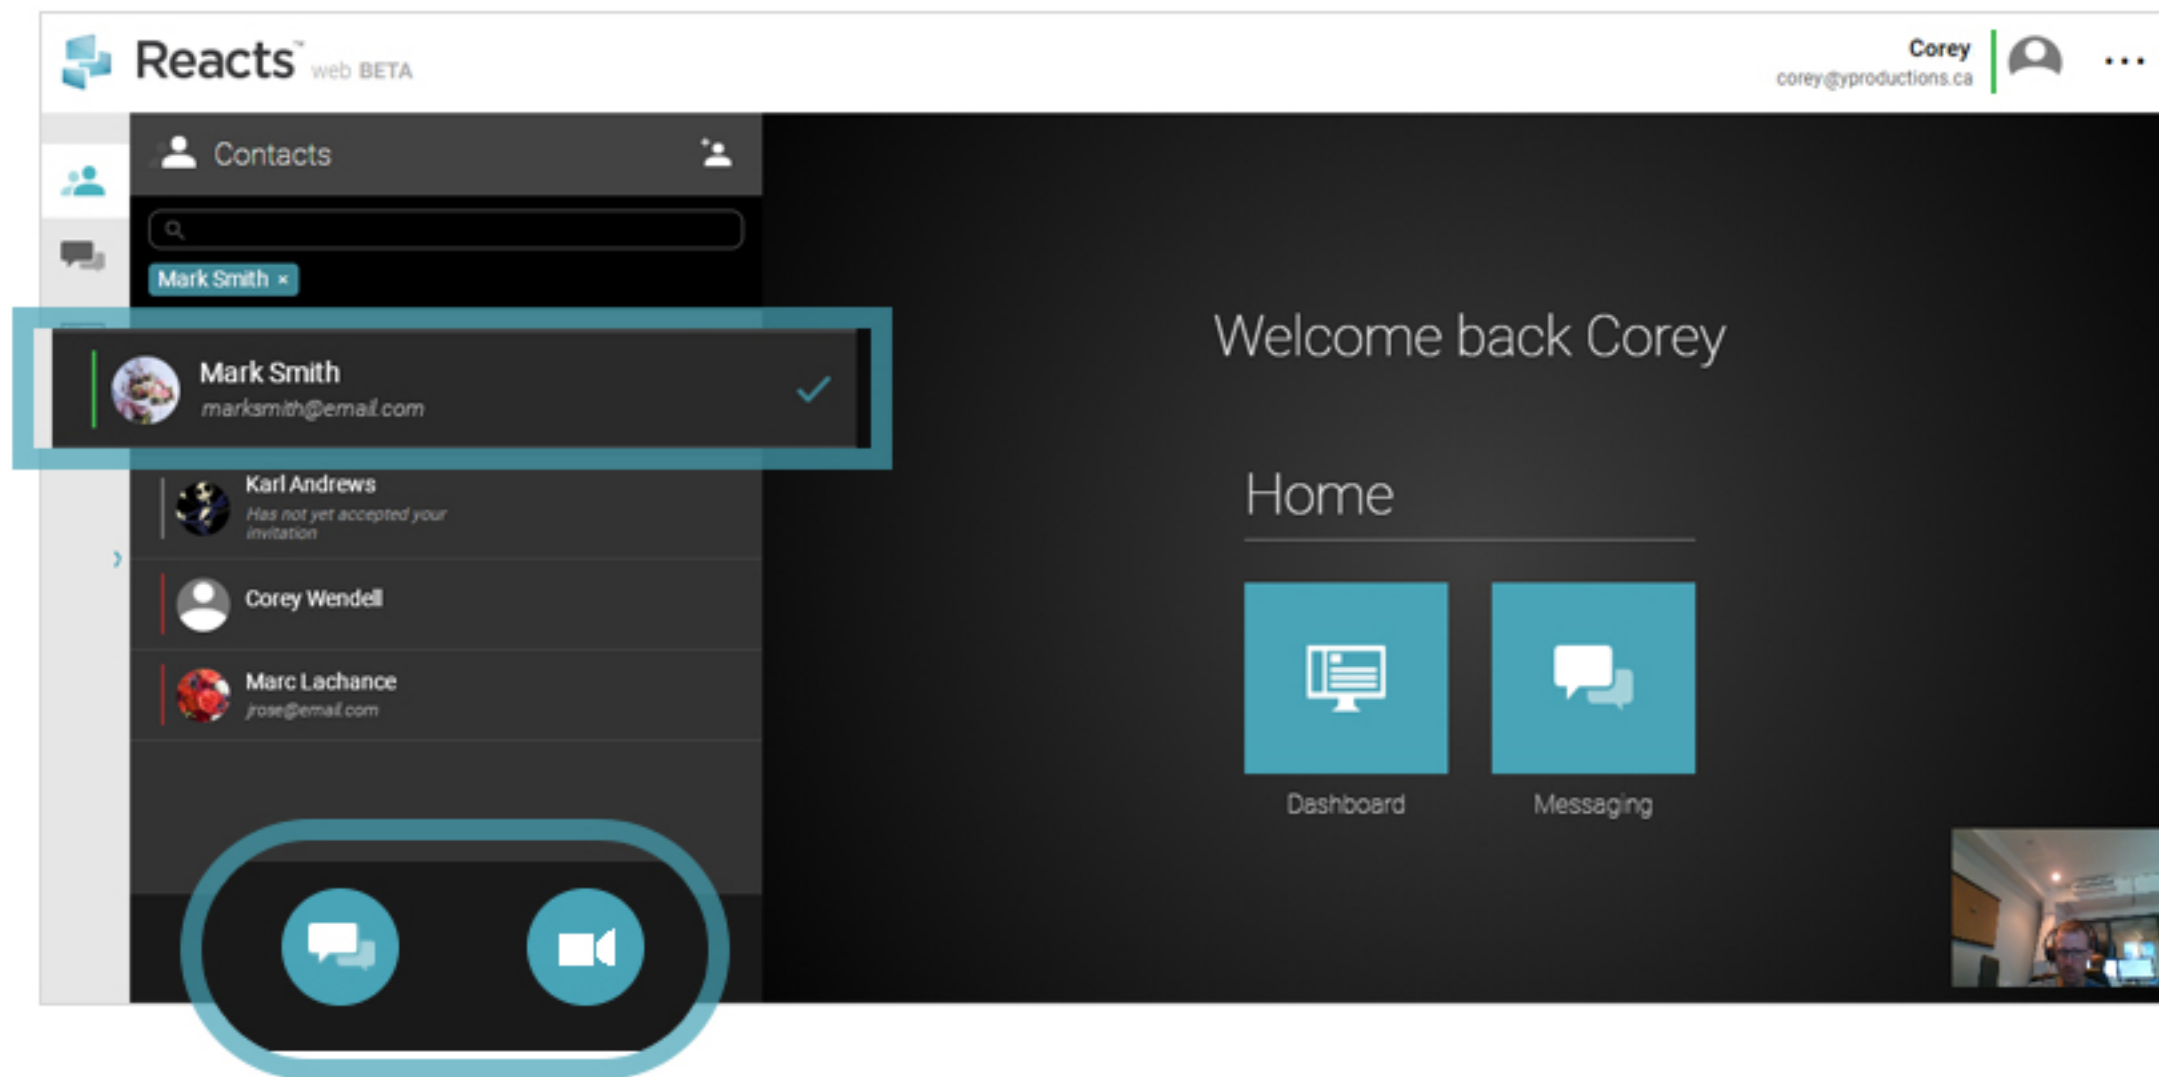

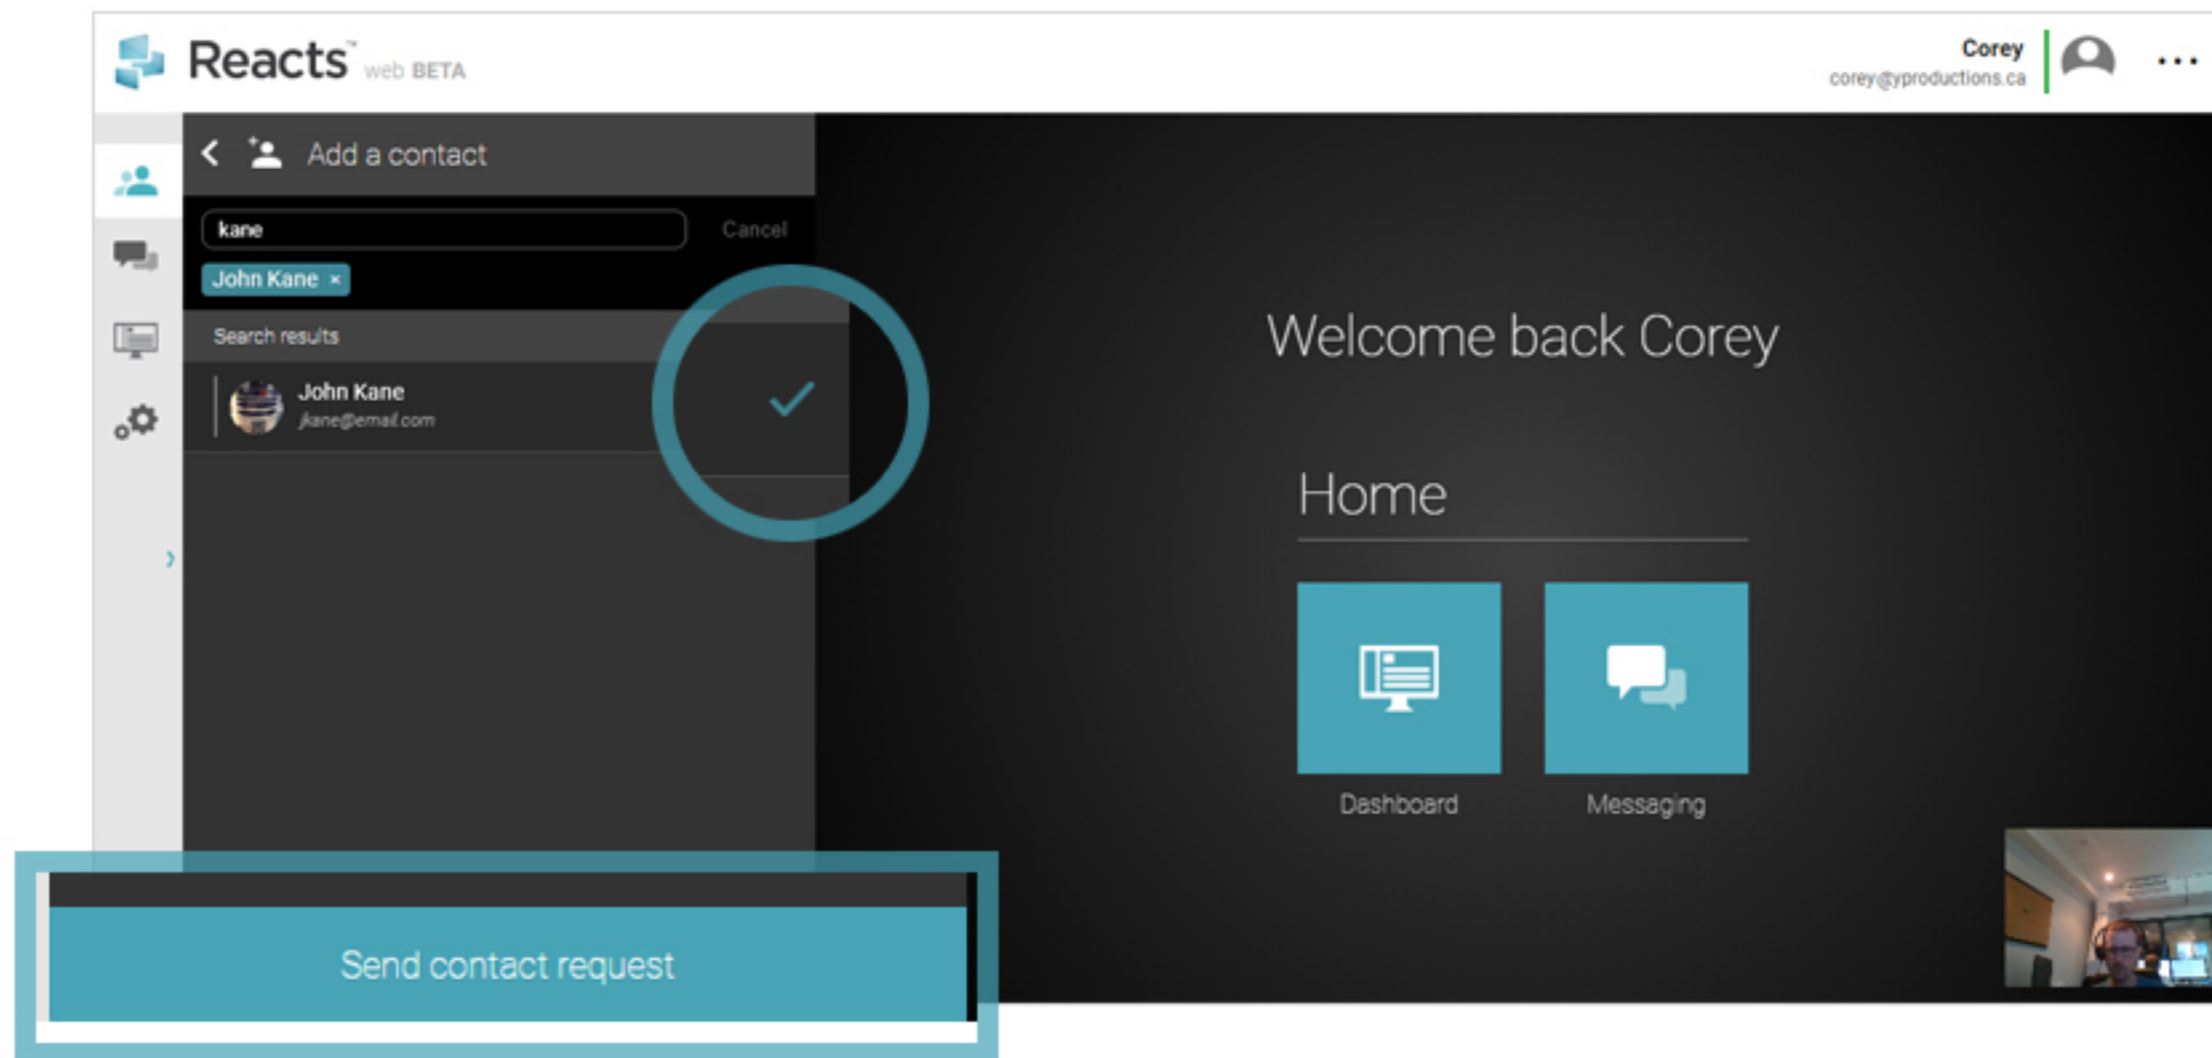

To invite a new contact, click on the **Add Contact** icon
at the top right of the Contact panel.

In the search field, enter the name or email address
of the contact whom you would like to invite.

Select the contact whom you would like to invite and click on **Send contact request**.

If the contact whom you are looking for is not a Reacts user, he/she will not appear in the list. In this case, click on the **Send an invitation to join Reacts** button, enter the email address of the contact whom you would like to invite, and click on **Send**.
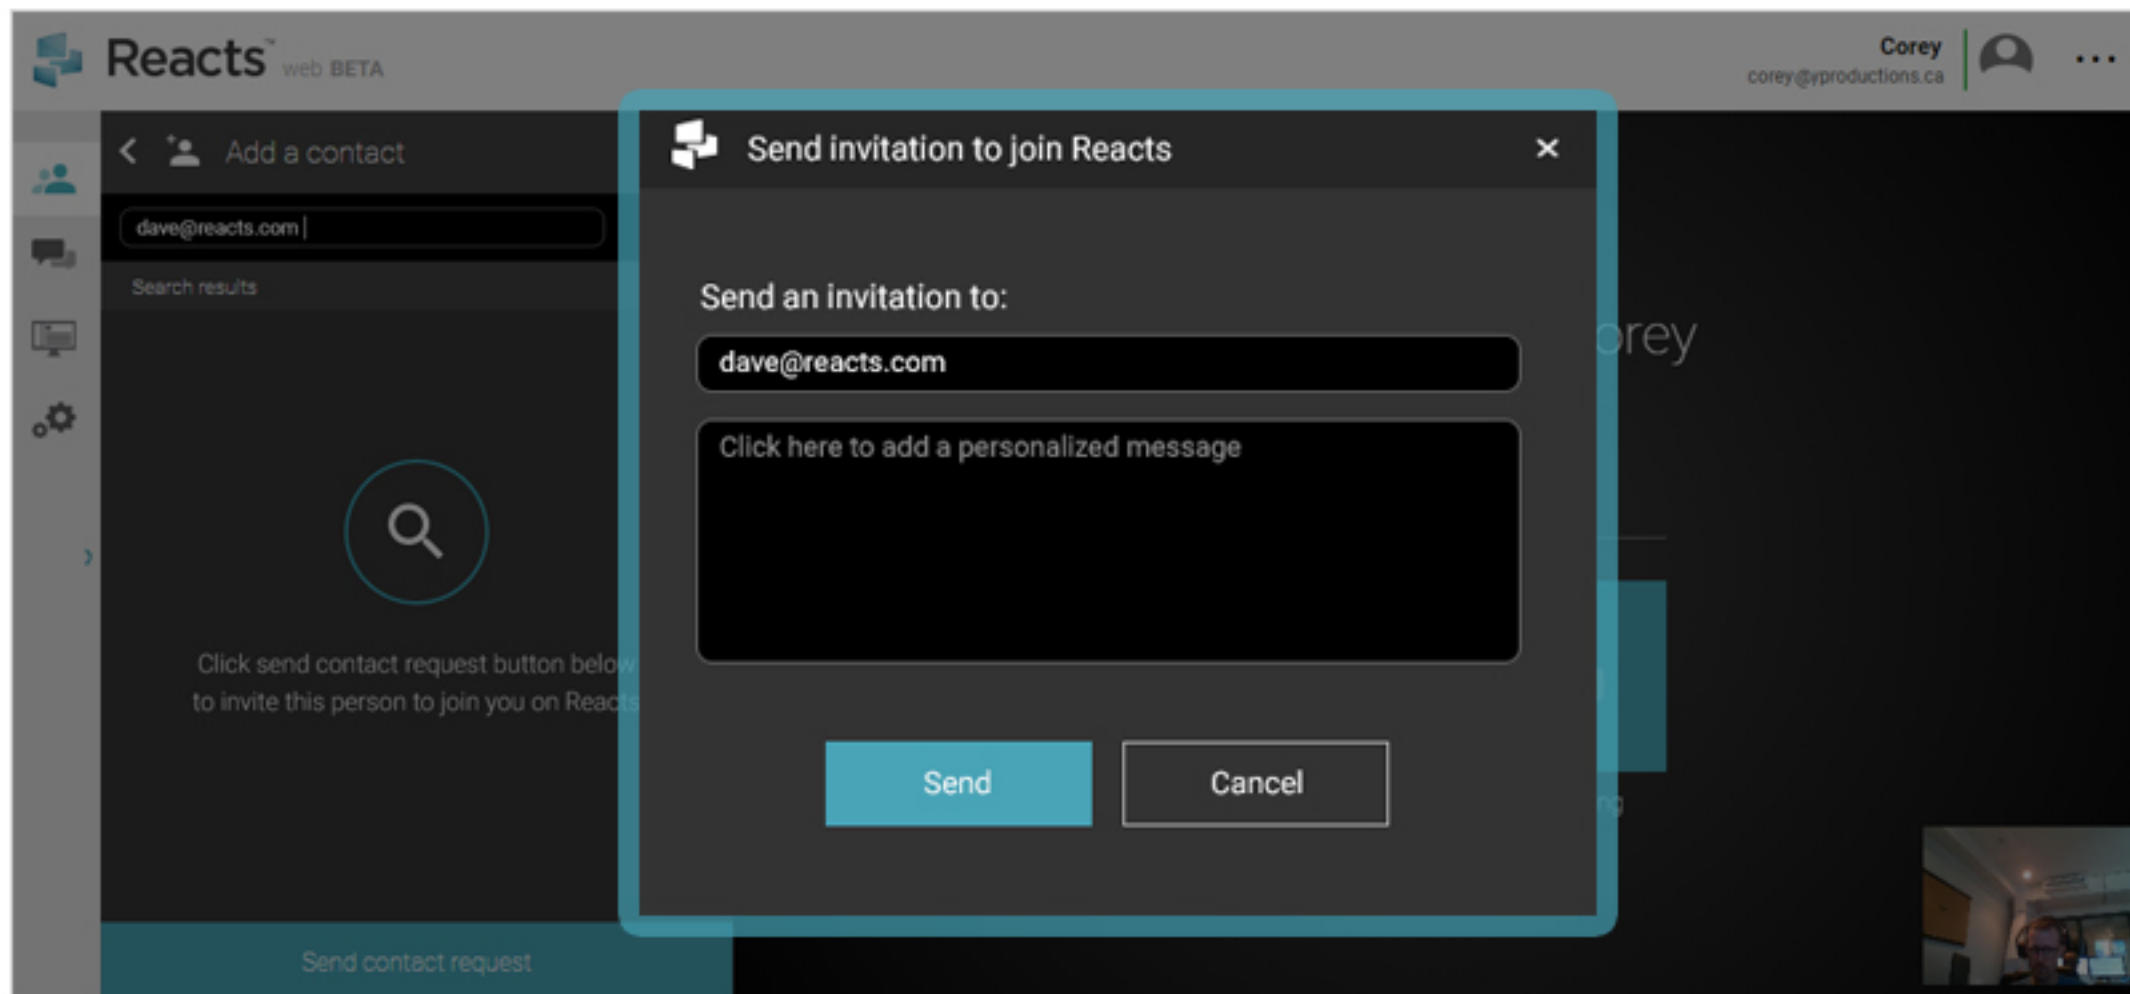

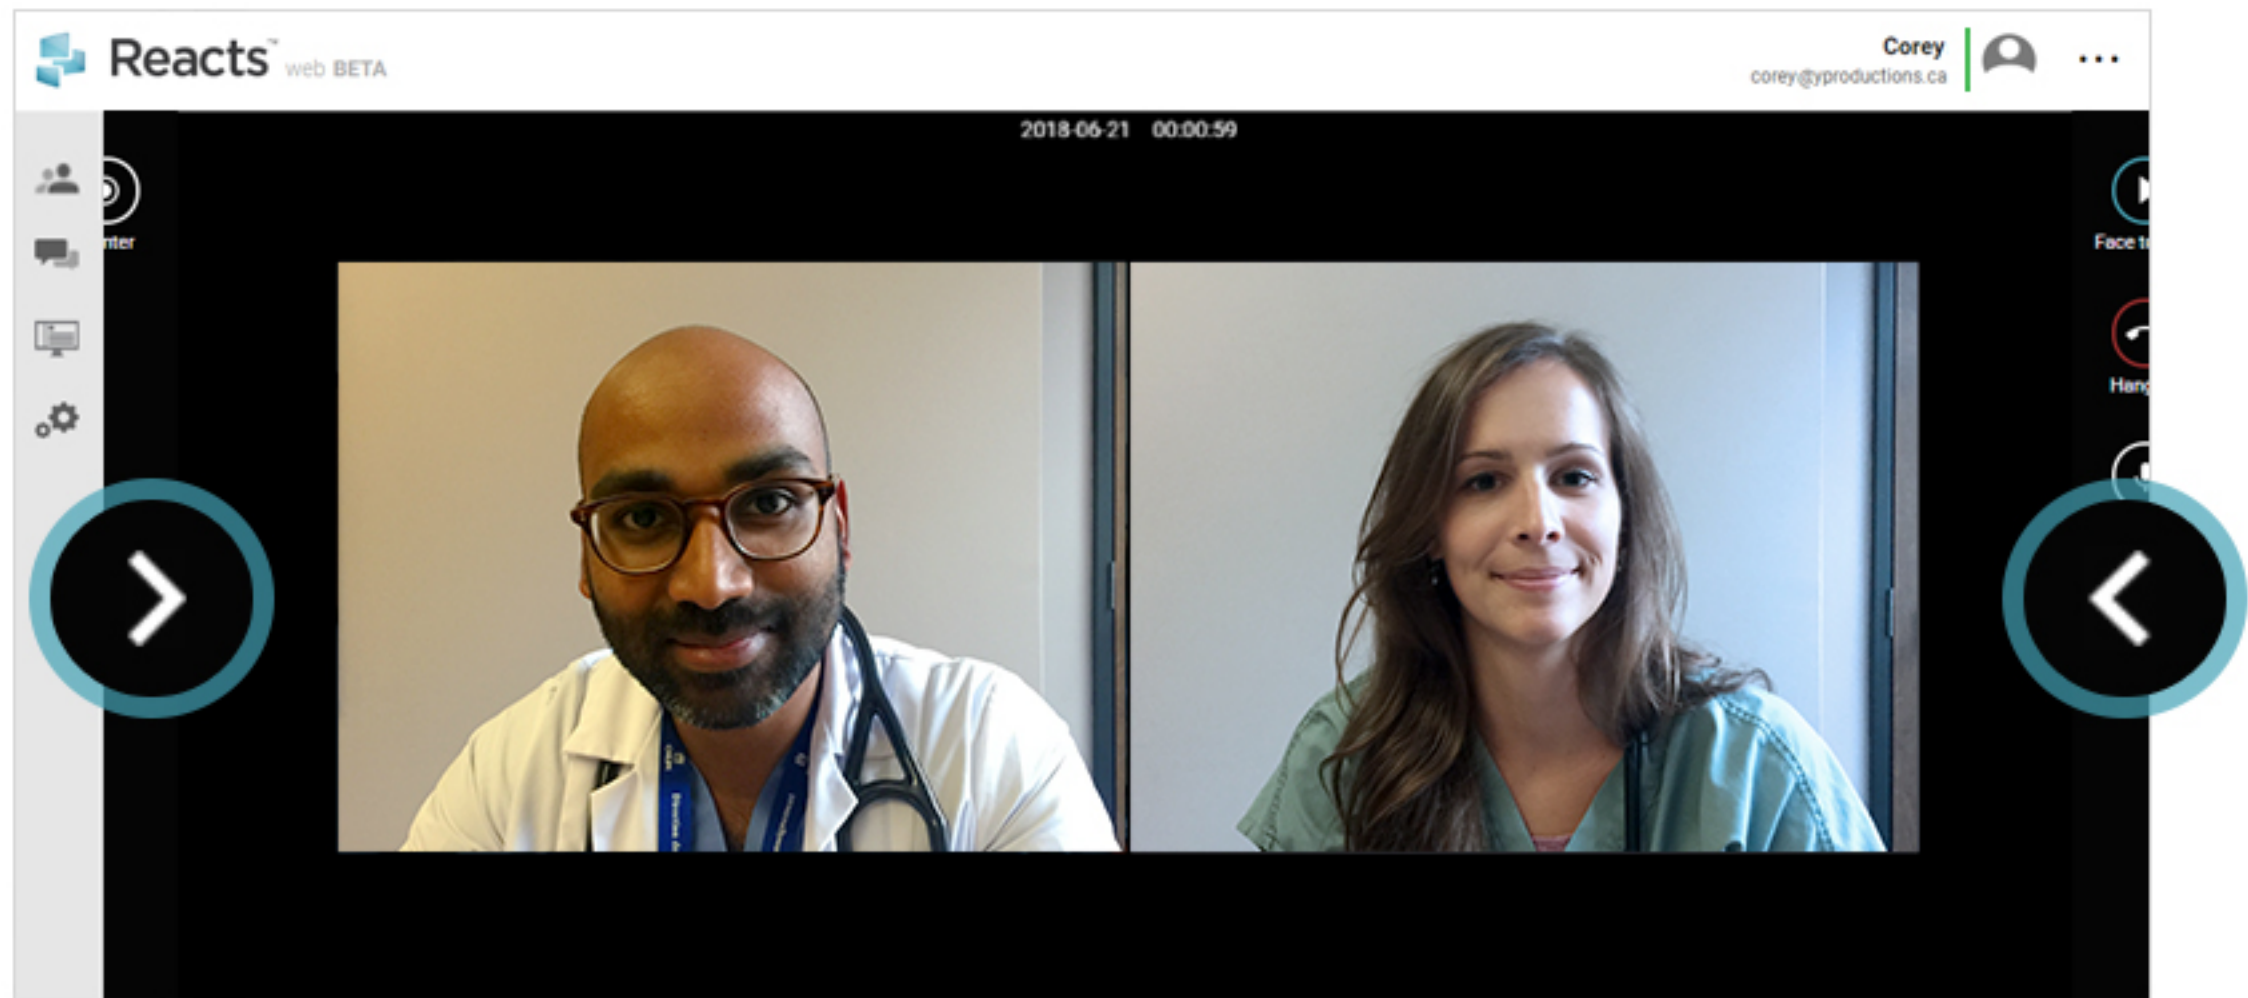

When your contact calls you on Reacts, just click on **Answer** to accept the call.
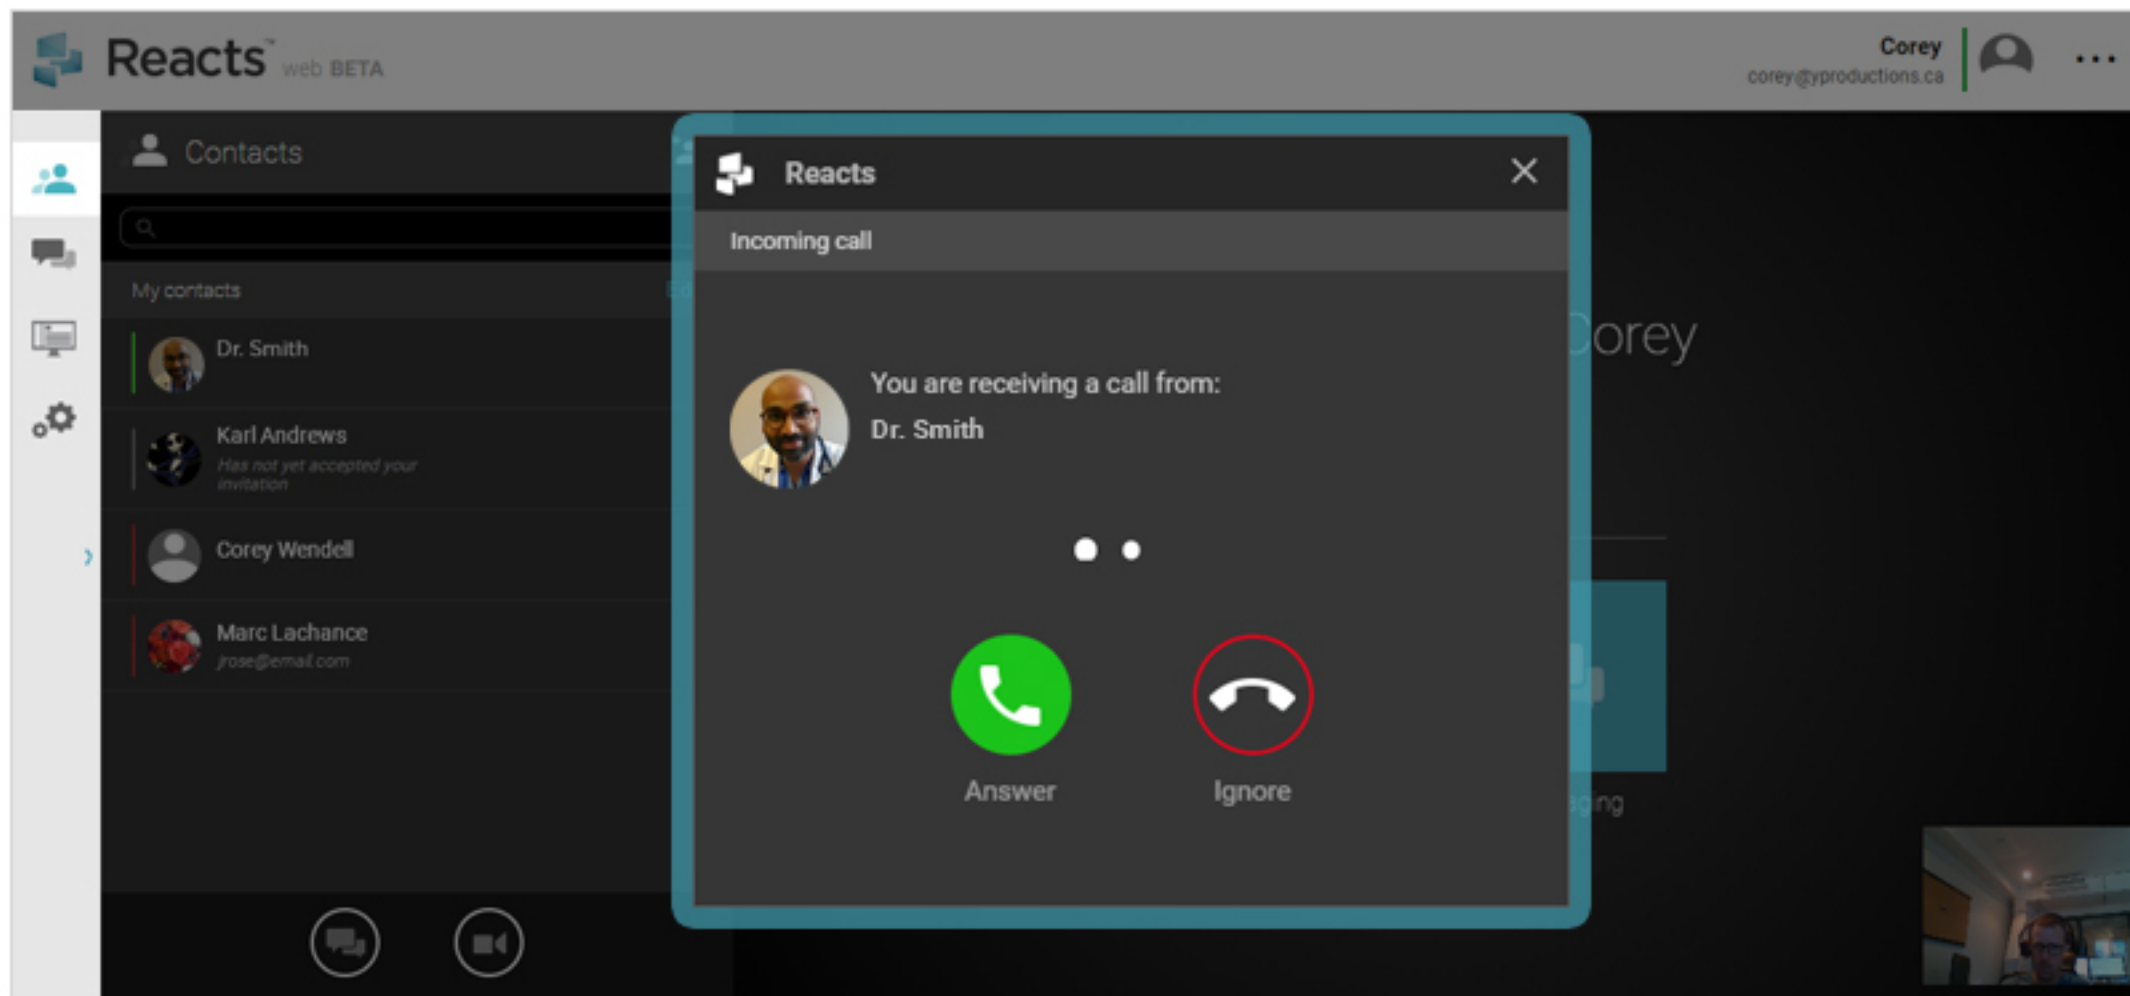

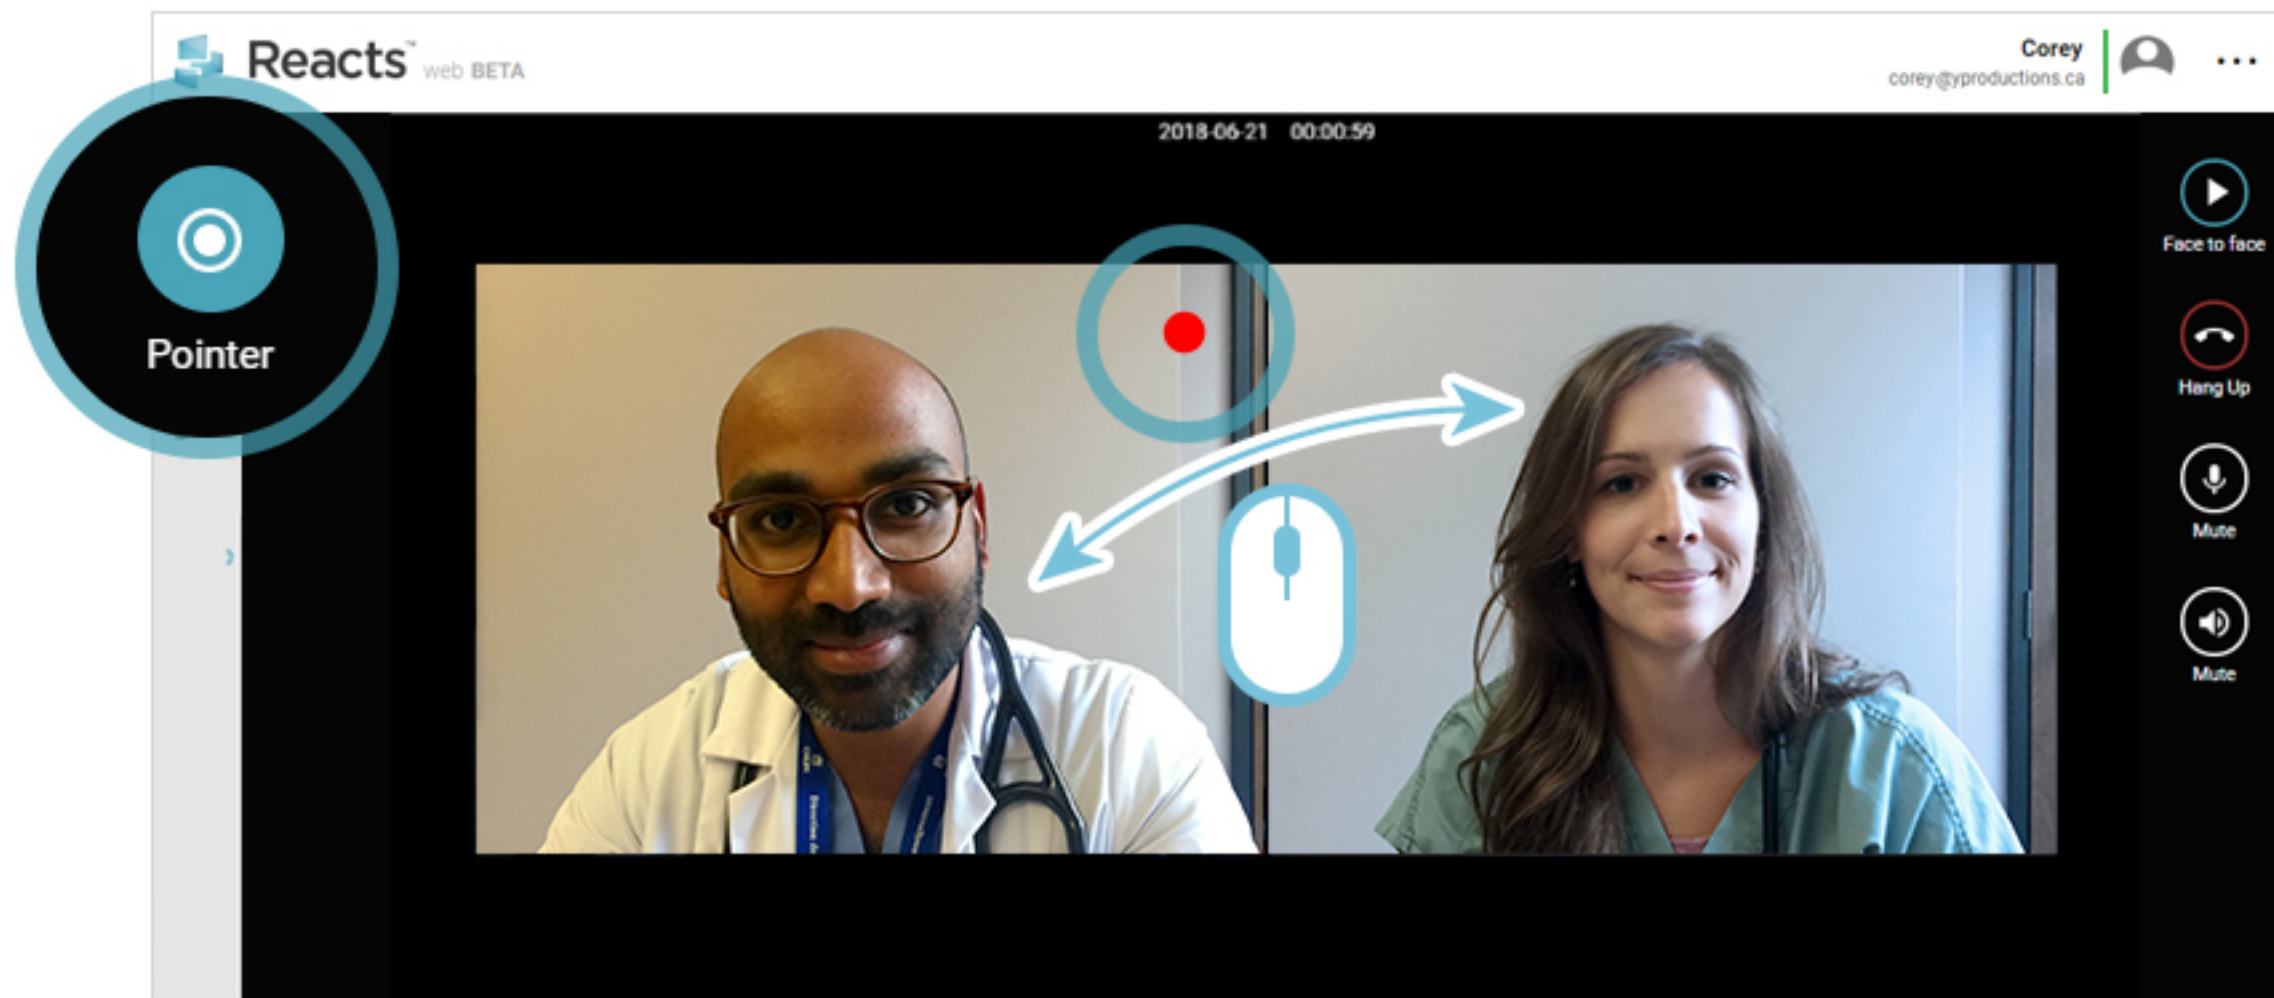

As soon as your session begins, you will be place in **Face-to-Face mode**.
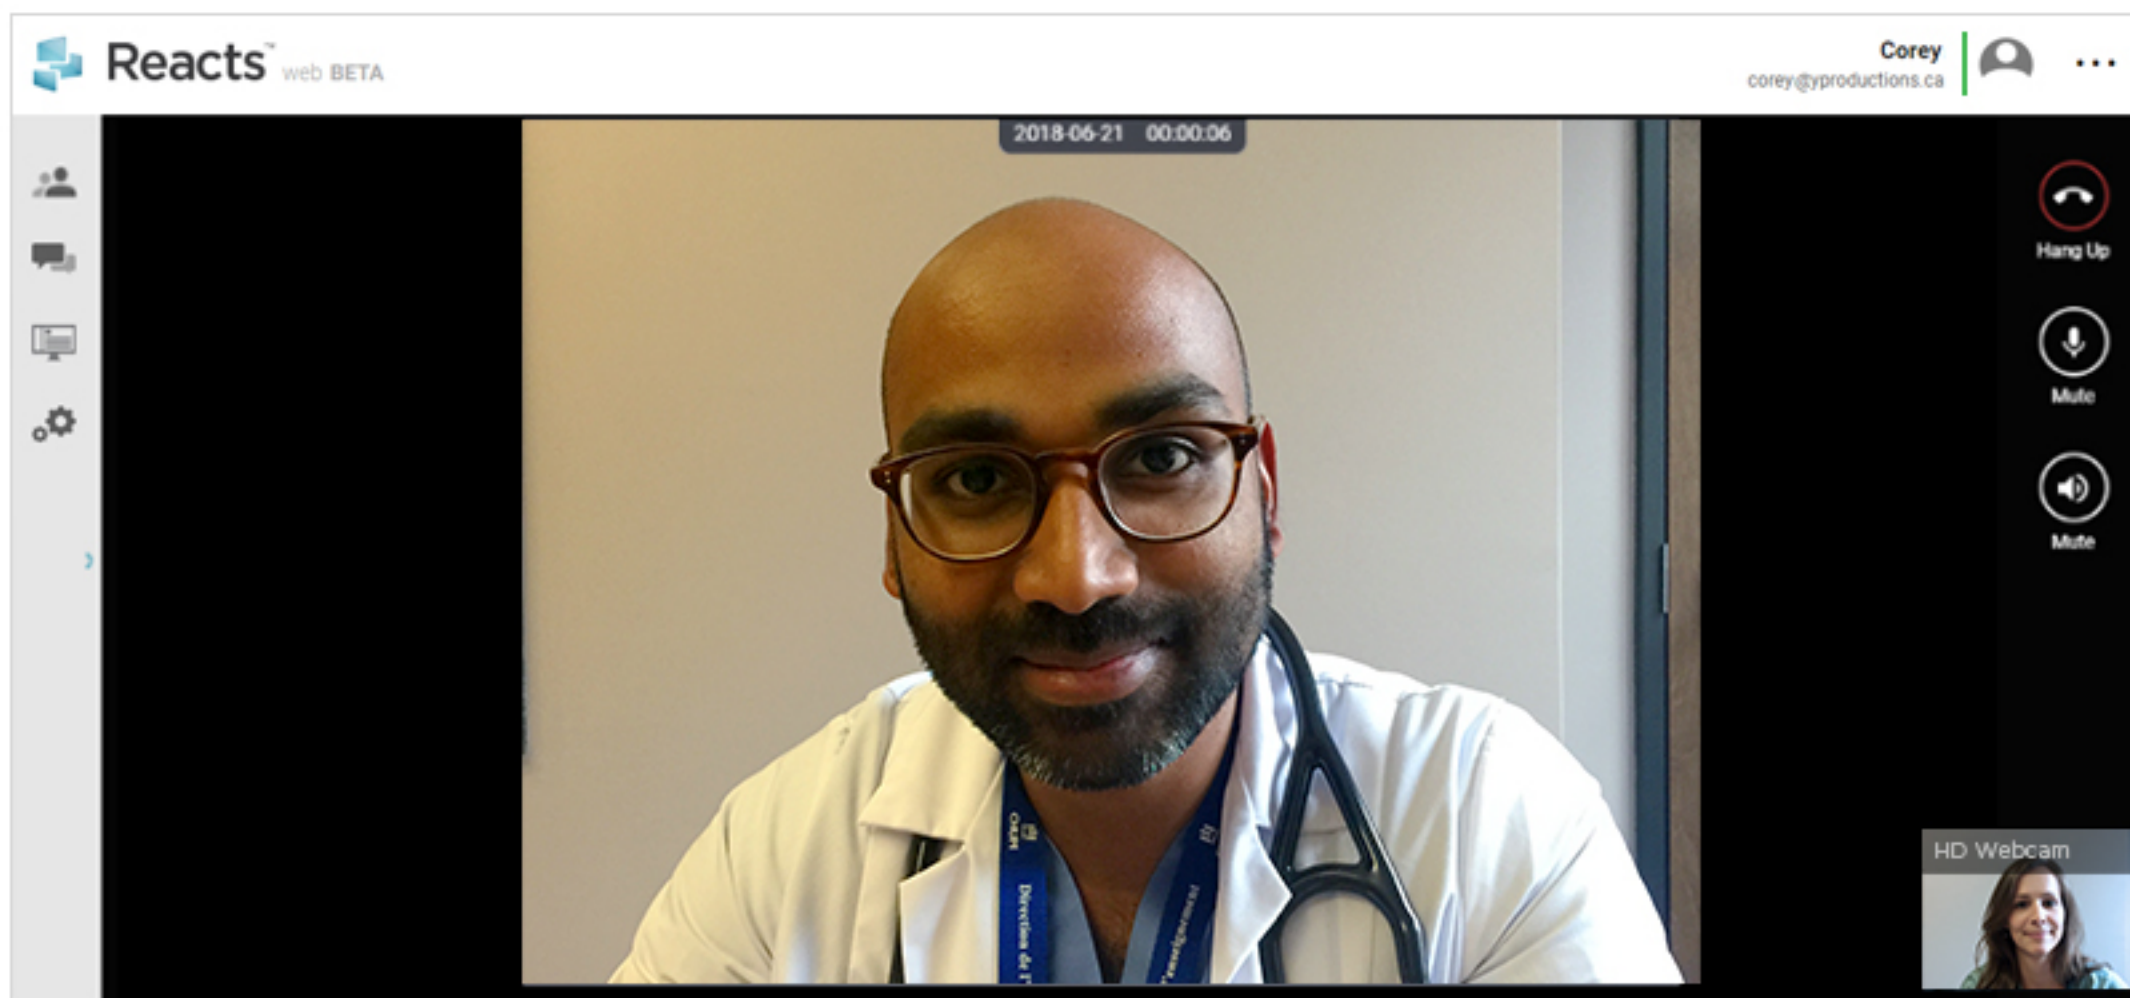

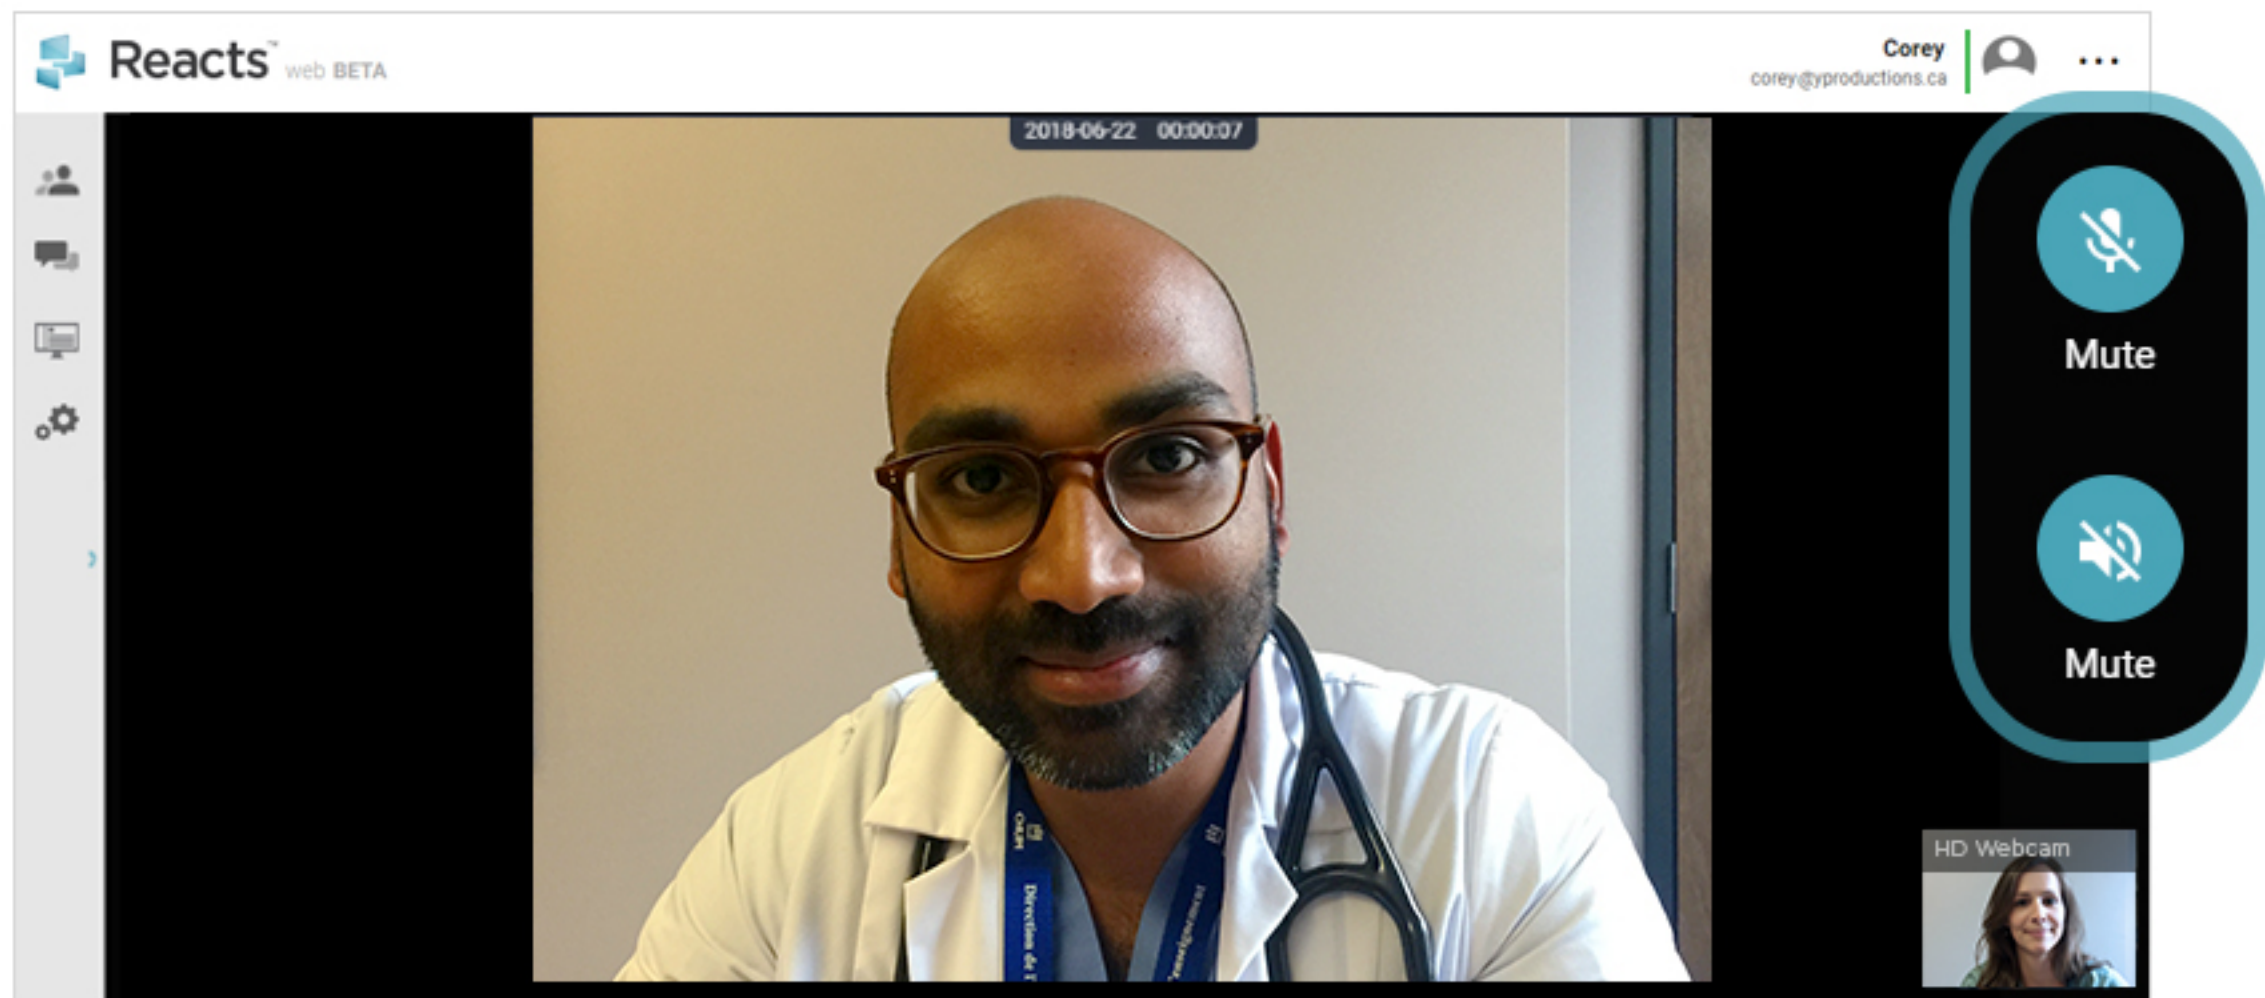

You can use the arrows on the sides of the interface to open and close the side menus.
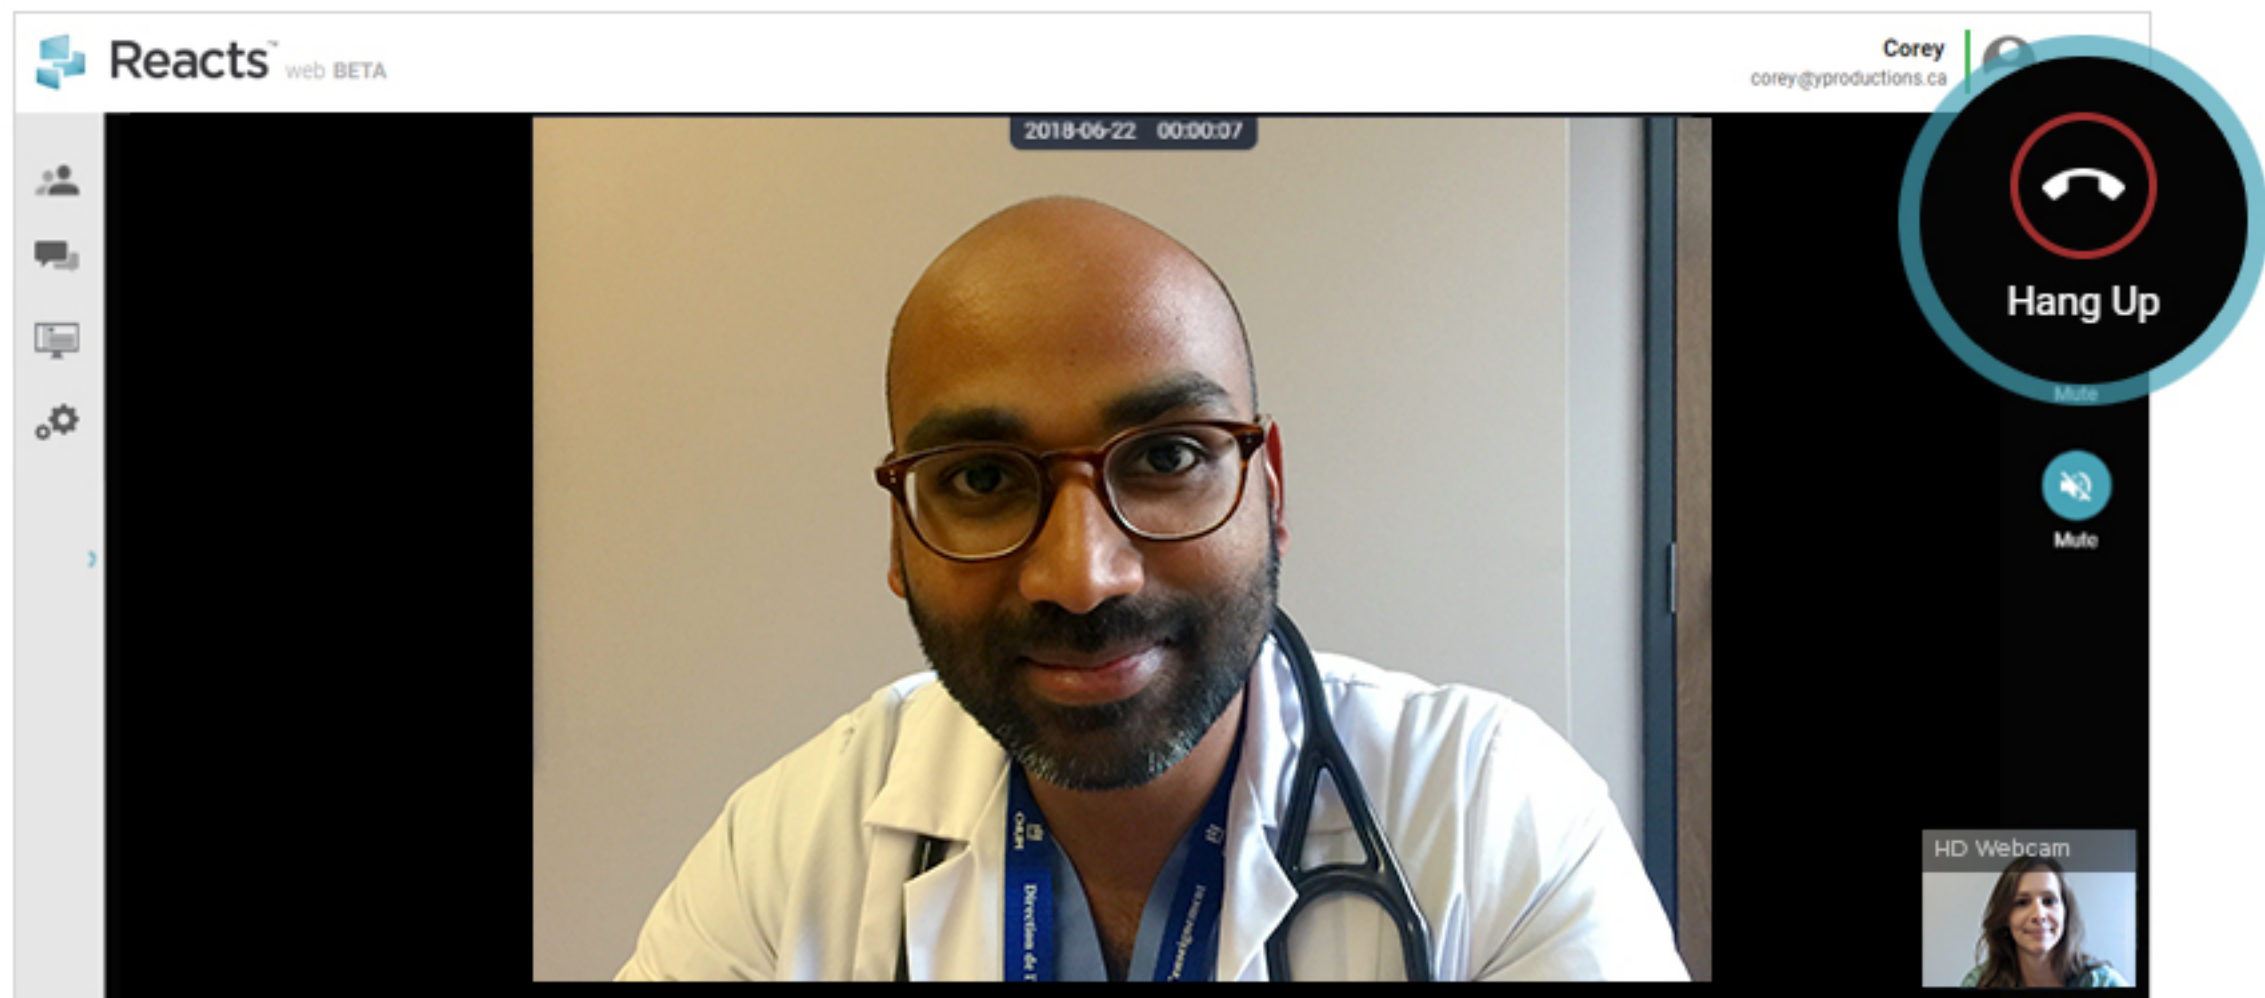

While in **Session mode**, you can use the virtual pointer to bring attention to something on the screen.
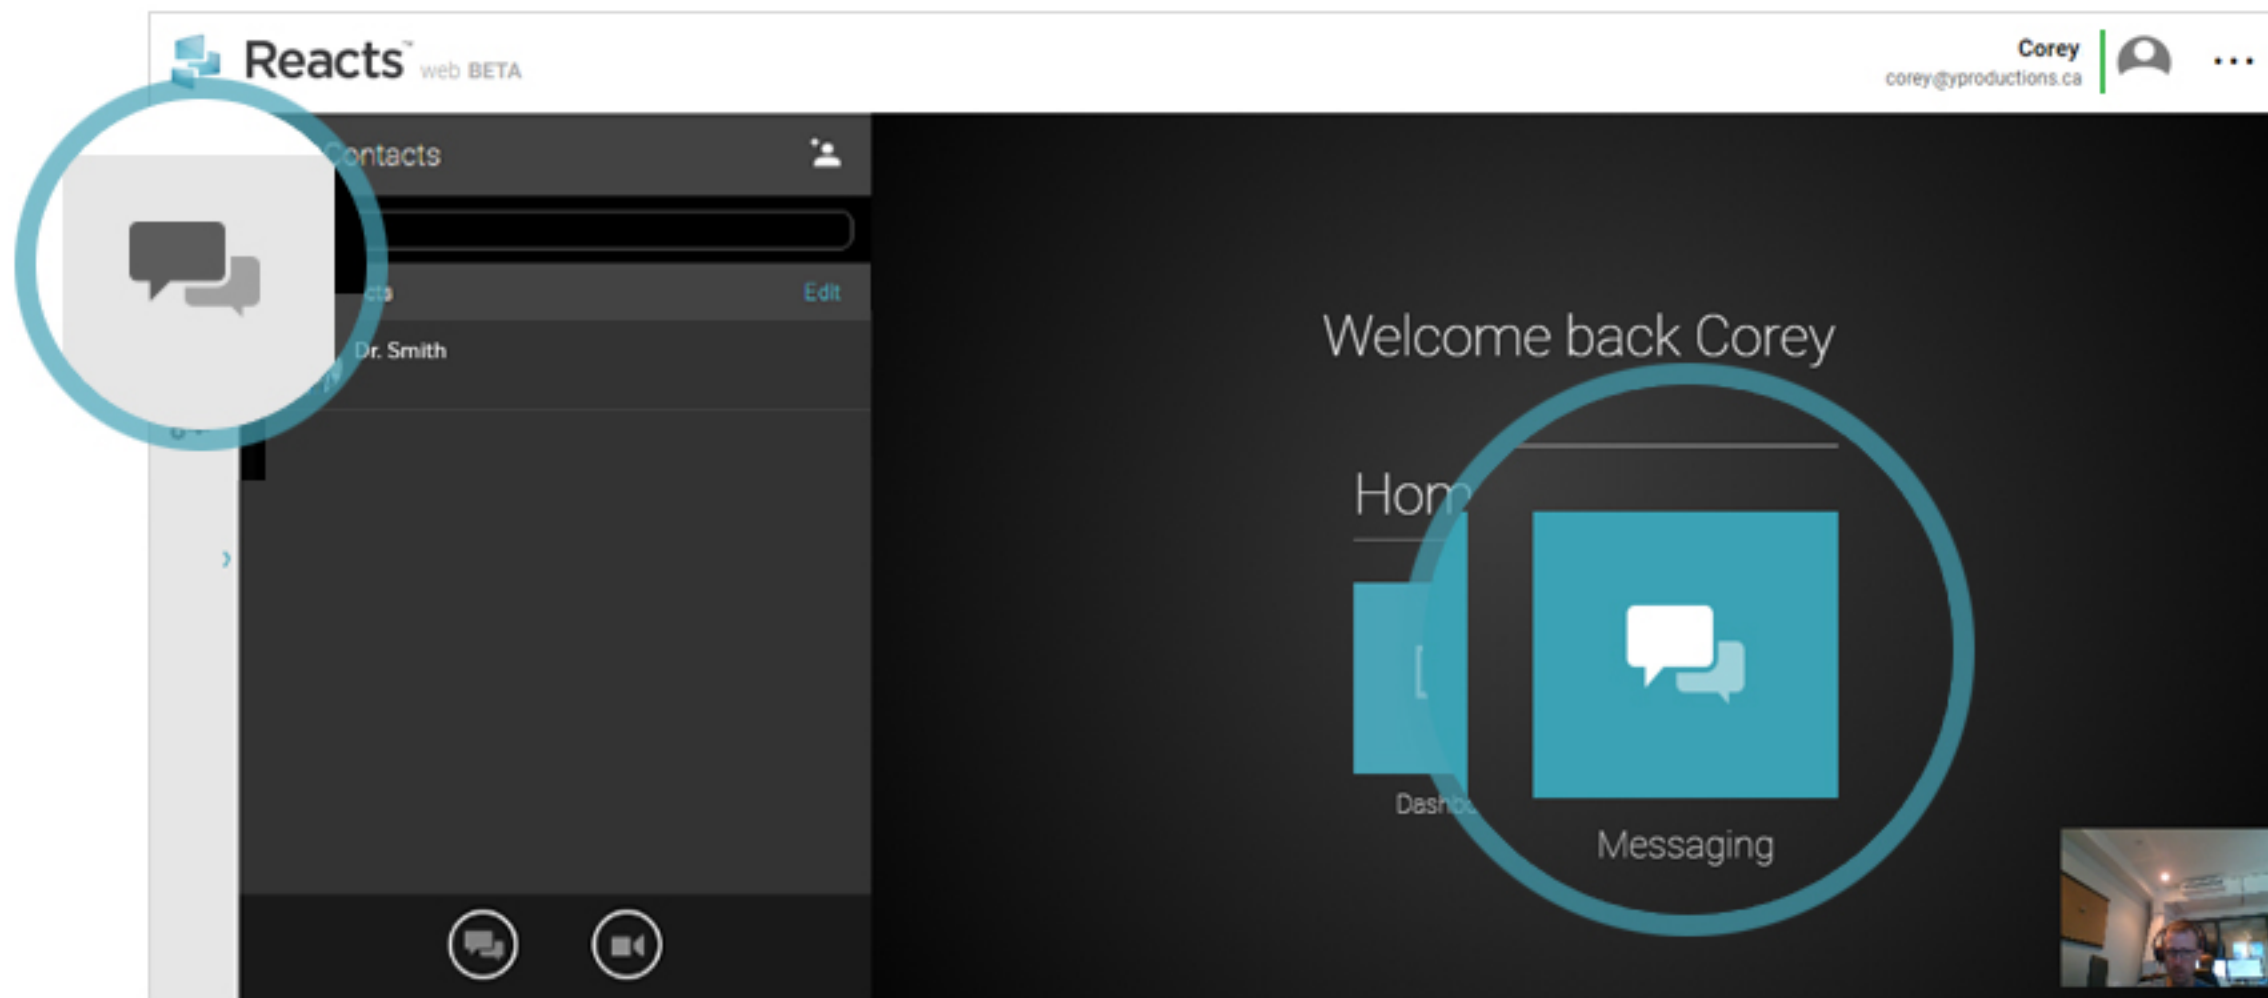

If needed, you can mute your microphone and/or your speaker audio.

# Click on **Hang Up** to end a session.

To send an instant message to your contact, click on the **Messaging** icon on the home page or in the menu on the left side of the screen.
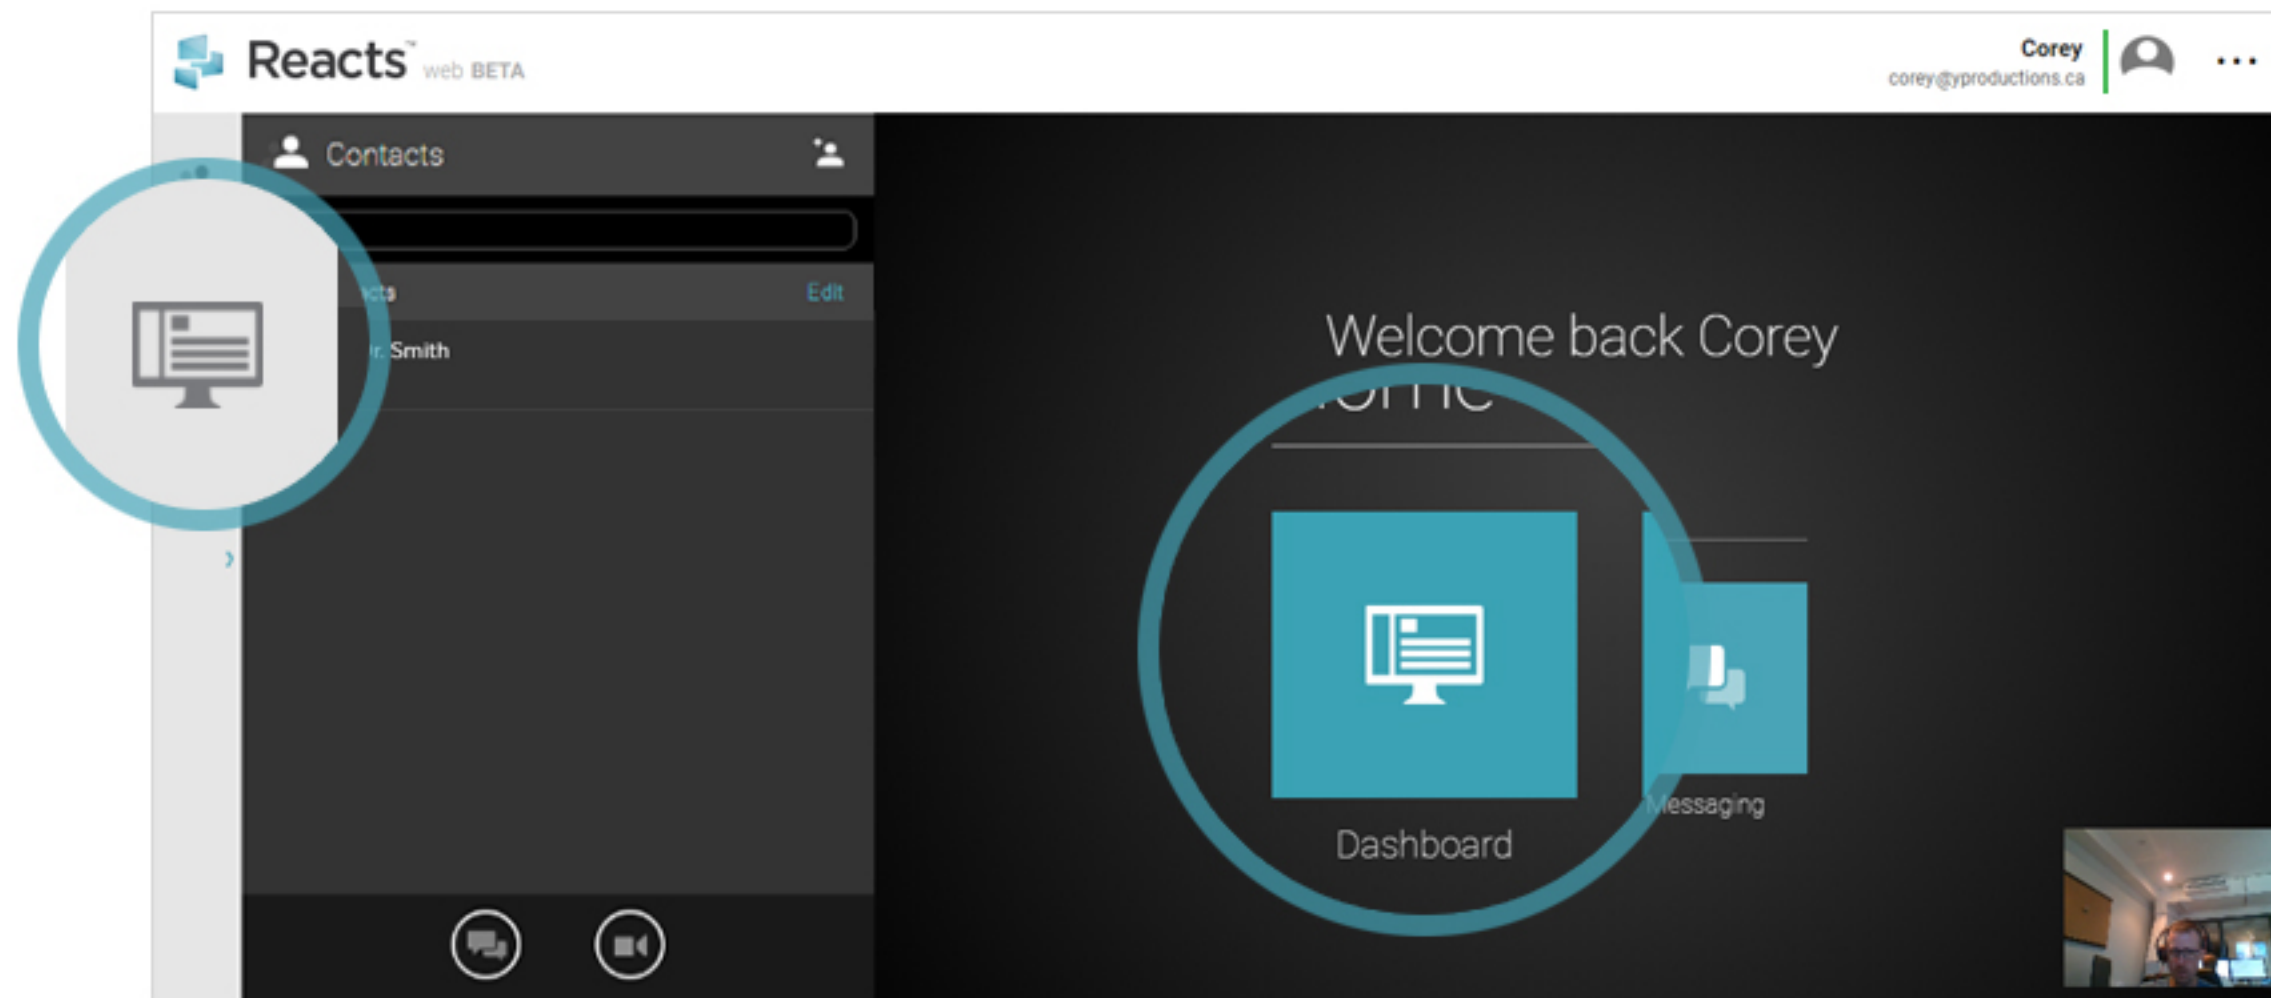

You can then either select an existing conversation...

... or create a new one by pressing on the **Write a message** icon.

To access your dashboard, click on the **Dashboard** icon on the home page or in the menu on the left side of the screen.

To log out, open the "···" menu in the upper right portion of the screen and click on **Logout**.
